Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

My trouble with the anti-lock braking system started 9-5-1997. The anti-lock braking system module has been replaced 3 times since 1998 4-9-98, 4-19-98, 8-29-02. Within a year of the last time I replaced the module, it stopped working again. I've had enough brake work done to buy a car. I'm sure it's because of my anti-lock braking system that I've had to have so many brake jobs done and the anti-lock brake lights still on
