Dear [REDACTED]

Thank you for your correspondence dated September 29, 2008, concerning your model year (MY) 1994 Load Rite trailer. The National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation received your correspondence on October 10, 2008.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or items of motor vehicle equipment when our investigations indicate that they contain safety defects in their design, construction, or performance. We also monitor the adequacy of manufacturers' recall campaigns. In order for the agency to initiate an investigation, we look carefully at the body of consumer complaints and other available data to determine whether a defect may exist. We cannot act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

We appreciate the report you provided. Reports from motorists are a very important source of information for us. Each report is analyzed and entered into a database to determine whether an investigation into a possible safety defect or safety defect recall adequacy is warranted.

In your letter you inquired if there was a recall issued for MY 1994 Load Rite trailers. Our database has revealed that there is a safety-related defect recalls on the MY 1994 Load Rite trailer that may be of interest to you. We have enclosed a copy of the recall summary for your information. Please contact your local dealership or Load Trail, Inc. for further details and have your make, model, model year, and vehicle identification number available for their information.
