Narrative Description of Incident(S), Crash(es), and Injury(ies).

Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure; i.e., parts repaired or replaced (and if old part is available).

TL*THE CONTACT OWNS A 2004 VOLVO V70. WHILE DRIVING APPROXIMATELY 60 MPH ON NORMAL ROAD CONDITIONS, THE CHECK ENGINE WARNING INDICATOR ILLUMINATED ON THE INSTRUMENT PANEL. THE ENGINE STALLED INTERMITTENTLY. THE WARNING INDICATOR REMAINED LIT UNTIL THE ENGINE WAS TURNED OFF. THE VEHICLE WAS TAKEN TO AN INDEPENDENT MECHANIC FOR DIAGNOSTIC TESTING. THE TECHNICIAN STATED THAT THE FAILURE WAS RELATED TO THE FUEL PRESSURE SENSOR. THE VEHICLE WAS REPAIRED. THE VIN WAS EXCLUDED FROM NHTSA CAMPAIGN ID NUMBER 07V226000 (ENGINE AND ENGINE COOLING), ALTHOUGH THE FAILURES WERE IDENTICAL. THE FAILURE MILEAGE WAS 28,900 AND CURRENT MILEAGE WAS 29,000.

WARNING INDICATOR WAS LIT WHILE ENGINE STALLED.

Attachment Report, Photos, and Repair Invoice.

ATTACH ADDITIONAL SHEETS IF NECESSARY

The Privacy Act of 1974-Public Law 93-579 This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

(OVER)

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

engine stalled while driving in traffic, several times, momentarily,

it recovered within 2-3 seconds by itself.

The service mechanic told us that it resembled attached recall 07V226000

The Volvo dealer said that our VIN was not in the range of VIN's covered by this recall, despite the identical symptoms.

Thank you for choosing Chesapeake Import Services

ALL PARTS ARE NEW UNLESS OTHERWISE SPECIFIED

PAYMENT IS DUE UPON
 COMPLETION OF WORK

We at Chesapeake Import Services appreciate your business, value you as a Customer and want you to be aware of our policies. Our charges for Labor may be based on actual mechanic's time or established by multiplying our retail labor rate by industry time allowances (flat rate) or our own judgement of the time to be charged. We provide a 90 day Warranty on all of the above Parts and Labor. Many of the parts are warranted for a period of up to 1 year by the Manufacturer or Supplier. All work related to any Warranty claim must be performed by Chesapeake Import Services and related invoices and work orders must be provided. Any Warranty will be valid only if the vehicle is returned at the Customer's expense to our service department for adjustment. This Warranty will be voided by overheating, lack of lubrication or offroad use of a non-offroad vehicle. This Warranty

Recall 07V226000: Fuel Pressure Sensor Replacement

Notes

MAKE/MODELS: MODEL/BUILD YEARS:

Volvo/S60 2003-2004

Volvo/V70 2003-2004

MANUFACTURER: Volvo Cars of N.A. LLC.

NHTSA CAMPAIGN ID NUMBER: 07V226000 MFR'S REPORT DATE: May 24, 2007

COMPONENT: Engine and Engine Cooling

POTENTIAL NUMBER OF UNITS AFFECTED: 38700

SUMMARY:

On certain passenger vehicles, the fuel pressure sensor located on the left end of the fuel rail may, at times, transmit incorrect signal regarding the fuel pressure to the engine control module. If the signal is outside of the pre-programmed allowable limits, a diagnostic trouble code may be set and the check engine light will come on. The soldered joints on the circuit board of the fuel pressure sensor may crack due to temperature changes and excessive vibrations.

CONSEQUENCE:

Misfire may occur during driving that, in turn, will reduce the engine torque and in the worst case scenario, the engine may stall without warning. In certain traffic situations this could cause an unsafe situation and possibly a crash.

REMEDY:

Dealers will replace the fuel pressure sensor free of charge. The manufacturer has not yet provided an owner notification schedule for this campaign. Owners may contact Volvo at 1-800-458-1552.

NOTES:

Volvo recall No. R181. Customers may contact The National Highway Traffic Safety Administration's Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.
