You are under no obligation to respond this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.			

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

On my car when I am sitting in the passengers seat the sign is on saying- Passenger Air Bag Off. My weight is 99 lbs and my height is 4' 11". My car has 2 air bags. One for a small adult and another sensor for a large adult. Why does this light stay on when I am a passenger 70% of the time? Does this mean that if I'm involved with an accident the small air bag will not inflate?
