**Narrative Description of Incident(S), Crash(es), and Injury(ies).**  
Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure; i.e. parts repaired or replaced (and if old part is available).

TL\*THE CONTACT OWNS A 2000 KIA SPORTAGE. SINCE PURCHASING THE VEHICLE, THE CONTACT HAS PAID FOR NUMEROUS REPAIRS. BEFORE DRIVING THE VEHICLE OFF THE LOT, SHE NOTICED A LARGE PUDDLE OF OIL UNDERNEATH THE VEHICLE. THE DEALER REPAIRED THE FAILURE, THE FOLLOWING WEEK, WHILE DRIVING 55 MPH, THE VEHICLE BEGAN TO SHAKE SEVERELY. THE DEALER ROTATED THE TIRES, BUT THE SHAKING PERSISTED. THIRDLY, A TIRE BLEW OUT AND HAD TO BE CHANGED. IN ADDITION, THE VEHICLE BEGAN LEAKING TRANSMISSION FLUID AND A NEW TRANSMISSION LINE WAS INSTALLED. LASTLY, THE WINDSHIELD WIPER MOTOR STOPPED WORKING AND THE ENTIRE DRIVER'S SIDE GLASS CAVED IN ON THE CONTACT, BUT DID NOT BREAK. THERE WERE NO INJURIES. CURRENTLY, THE GLASS WILL NOT ROLL UP OR DOWN. THE FAILURE MILEAGE WAS 86,000.

*wiped off the vehicle*

*750 hess said the report included from Park Auto, when the service tech checked the whole car upon the left as well as under the hood he said that they did a temporary fix on the gaskets and sprayed with silicone & used the extra oil*

Include, if available: Police/Fire Department Report, Photos, and Repair Invoice ATTACH ADDITIONAL SHEETS IF NECESSARY

The Privacy Act of 1974-Public Law 93-579 This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

- 12-12  
1. Oil puddle leak - CRANKETS (ALL) Never repaired but told they were
- 2. Transmission lines leading - repaired (cut) rubber hoses installed (leaking)
- 3. Shakes excessively past 50 MPH - on A highway IT SPARES THE HOLE
- 4. Blowout on 275 (major hwy) at 65 mph. putting my life & others in danger.
- 5. Flat tire again
- 6. Bottom of car & motor rusting out (Gas Tank falling out)
- 7. Tank shield needed so gas tank don't fall out.
- 8. Drivers window falls in during driving scaring me almost causing accident
- 9. Parts from car to battery replaced 4 times - melts and now battery endangers me and others.
- 10. Radiator leaking Propusely - Pepper temporary fix
- 11. Wipers & motor - Wipers flowing off vehicle during rain (replaced 3 times & zip tied on to hold)
- 12. Car painted on bolts & middle seat replaced to different color, water damage ceiling

## Records of the Sale

You should receive the following documents (or copies) from your dealer at the time of signing.

- Motor Vehicle Purchase Contract
- Odometer Statement from the Dealer
- Window Disclosure Labels or Buyer's Guide
- Warranty or Service Agreement, if applicable
- Finance Contract, if applicable
- All Other Documents You Sign

It's wise to save copies of all documents received during your vehicle purchase transaction.

## Tips for Wise Car Buyers

- Carefully read window labels listing vehicle price and condition. Carefully, read the title; odometer statement, and any warranties.
- Test drive the vehicle. The dealer will ask to see your drivers license and may have a salesperson ride with you during the test drive.
- Ask about the vehicle's former title history, condition, mileage, and use.
- Have your own mechanical expert inspect the vehicle.
- Protect yourself and the next owner; report the true mileage and use of your trade-in vehicle.
- Get all promises in writing on the contract.
- Read all documents thoroughly before signing to ensure information is correct.
- Do not sign a contract until you are ready to buy. Once you sign it, there is little, if anything, that can be done to cancel it.
- Keep copies of all documents you sign.
- Never sign a blank document. It is a wise practice to enter "N/A" for "not applicable", where appropriate.
- There are several sources of information available to determine the value of your trade-in as well as the value of the vehicle you intend to purchase. They included, but not limited to, Consumer Reports, Kelley Blue Book, and the N.A.D.A. Guide.
- Compare the actual title and registration fees depicted on your registration document to what the dealer actually charged and if you were overcharged, demand a refund from the dealer.
- Consider the use of services that can provide details on the history of the vehicle you intend to purchase.

## For Information or Assistance

The Division of Motor Vehicles licenses and regulates dealers and helps resolve any disputes concerning vehicle sales and warranty work.

**Car Buyer's  
Guide**

# Wise Buys

When buying a used motor vehicle from anyone other than a licensed reputable dealer, be cautious. Here are some wise tips to follow when purchasing a vehicle:

- Check the vehicle identification number (VIN) to ensure it appears the same on the title certificate as it does on the vehicle. *on # written wrong on contract*
- Check the vehicle's doors and ignition locks to ensure they have not been tampered. *was a question on contract*
- Check windows for signs of break-ins such as tool marks or chipped glass, windows which do not properly close, or have glass which has been replaced. Check windows for an etched VIN which should match the public VIN. *check for tampering*
- Verify the seller's telephone number. Unlisted numbers or pager numbers are difficult to trace should problems arise with the vehicle.
- Determine the reason the vehicle is being sold. Pay attention to the seller's reason for selling. Inconsistencies can indicate illegal sales.
- Check the vehicle's title certificate for evidence of erasures or other signs of tampering. Is the vehicle titled in the seller's name?
- Verify the seller's information on their driver's license to ensure it matches the name on the title certificate. Do the signatures match?
- Verify that the issue date on the title coincides with the seller's reason for disposing of the vehicle.
- Have the vehicle inspected by a reputable mechanic. *Mechanics said no*
- Remember, an advertised price will not include sales tax or tag and title fees. You will be expected to pay these fees to the county tax collector's office at the time ownership is transferred.

## Buying From A Licensed Dealer

When you buy from a licensed Florida Dealer you are protected by Florida's Motor Vehicle Laws. Dealers must follow the laws when they advertise, display, and sell vehicles. You do not get this protection when buying from a private party.

When a licensed dealer places an ad, the advertisement must disclose all charges you are expected to pay, except sales tax, tag and title fees, which the dealer must collect up front from the purchaser. The dealer is required by Florida Law to apply for title and registration, in the name of the purchaser, within 30 calendar days from the date of delivery.

## Used Vehicle Buyer's Guide

If you go to a dealer to purchase a used vehicle, look for a "Buyer's Guide" sticker on the window of each vehicle. The Buyer's Guide, required by the Federal Trade Commission's Used Vehicle Rule, gives you important information and suggestions to consider.

- If the vehicle comes with a warranty and, if so, what specific protection the dealer will provide;
- If the vehicle comes with no warranty ("As Is");
- Ask to have the car inspected by an independent mechanic before you buy;
- Get all promises in writing; and
- What some of the major problems are that may occur in any vehicle.

## Truthful Advertising

Expect ads to say what they mean and mean what they say! An advertised price should include all charges you will pay to buy a car (excluding tax, title and registration fees).

## Warranty Information

**New Vehicle Warranty** - New cars carry a manufacturer's warranty which will vary in months and/or miles. Some dealers offer extended warranties. These warranties are sold either through the manufacturer or insurance company. Warranties that are offered through insurance companies are regulated by the Florida Department of Financial Services. For additional information on these warranties offered by insurance companies, please contact the Florida Department of Financial Services at 1-800-342-2762. Tires, battery, and dealer installed options may have separate warranties that differ in time and mileage. Read any warranties to find out what is covered and for how long, who will honor the warranty, and what you must do to keep it in effect.

**Florida's New Car Lemon Law** - Florida's Lemon Law applies to new or demonstrator vehicles sold or long-term leased in the state. When consumers buy or lease a new or demonstrator motor vehicle, they must receive from the selling dealer or lessor the "Consumer Guide to the Florida Lemon Law". This publication explains consumer rights, gives steps to follow to resolve problems, contains a toll-free number for the Lemon Law Hotline and a form the consumer can use to notify the manufacturer of chronic defects and time out of service for repair.

To obtain a "Consumer Guide to the Florida Lemon Law", or speak with someone about the Lemon Law, consumers in Florida may call the Lemon Law Hotline at 1-800-321-5366 or 1-850-488-2221 for consumers outside of Florida, between the hours of 8:30am to 4:30pm, Eastern time.

**Buyer's Guide/Used Car Warranty** - Read the window label (Buyers Guide) to find out if a used car has any dealer warranty or remaining manufacturer's warranty. Ask who will transfer any remaining manufacturer's warranty and who will pay transfer fees.

**"As-Is"** - If you buy a vehicle with no dealer warranty it will be marked "As-Is" on the window sticker (Buyer's Guide). "As-Is" means the dealer is not responsible for repairs the car needs later, even if the car comes with a manufacturer's warranty.

## A Binding Contract

### You Sign, You Buy

Dealers use the "purchase contract" form when selling vehicles. Read and understand the contract before you sign. Once you and the dealer sign the offer, it becomes a binding contract. The dealer cannot raise the price or sell the vehicle to anyone else. You cannot cancel the contract. *fuel charges after signing*

The contract should include the following information about your purchase:

- Whether you are buying the car with a warranty or "As-Is".
- Date your vehicle will be delivered.
- Other conditions of sale. Get all promises in writing on the contract.
- Itemized list of all costs including tax, title and registration. NOTE: Administrative fees, courier fees, processing fees, handling fees, and get ready fees, often charged by dealers and printed on the buyer's order, are not official fees. They are a profit for the dealer and are negotiable.

### No 3-day Right to Cancel

Many consumers mistakenly believe they have three days to cancel the purchase contract. There is no "cooling off" period under Florida Law.

### Trade-In

Get the price for your trade-in in writing on the contract. The price will not change unless you put more miles on the car than agreed to in the contract, remove parts, or damage it before trading it in. Protect yourself and the next owner of the car by giving accurate information about your trade-in's mileage and how it was used.

U.S. Department  
of Transportation  
**National Highway  
Traffic Safety  
Administration**

1200 New Jersey Avenue SE  
Washington, DC 20590

Dear Consumer:

NVS-216fb

As a result of your report to the Vehicle Safety Hotline (VSH), we have recorded that report on the enclosed Vehicle Owner Questionnaire (VOQ) form. Please review the form and make changes, additions, and corrections as necessary. Additionally, please provide a more detailed description of the failure(s) you reported that you believe relevant to safety. Also, if available, include copies of repair invoices, letters to the manufacturer, or any other document related to the problem(s) you reported. If a crash or fire occurred, include a copy of the police or fire department report.

It is helpful to be as thorough as possible in your report so that our ability to use your report will be maximized. If you do not have the information, it is not necessary to complete all the boxes. However, it is very difficult to identify the scope of a vehicle problem unless the vehicle identification number (VIN) is known. The VIN is located inside the vehicle on the dashboard adjacent to the left (driver's side) of the windshield pillar and on the driver's side door or the driver's side door jam. It may also be listed on the dealer's repair invoices. When reporting a tire problem, the brand name, tire name and complete tire size should be included. If possible also provide the DOT tire identification number. It is usually located near the rim flange of the tire on either side of the tire.

The Privacy Act prohibits our agency from identifying you to the manufacturer without your permission. If you wish to give us that permission, please mark the appropriate authorization box and sign the form to allow us to provide your name to the manufacturer. The information you provide may assist the manufacturer and NHTSA in determining if a safety-related defect exists.

Any information provided is entirely voluntary. There is no consequence or penalty of any kind if you do not wish to provide it. We seek this information to develop both statistical and investigative evidence that will help identify potential safety related problems in a vehicle or vehicle equipment, e.g., tires, child safety seats, jacks, etc.

When completed, please fold and staple or tape the form so that the pre-addressed portion of the form is on the outside. If larger envelope is used, tape the VOQ form to the larger envelope so that the pre-addressed portion of the form is showing.

If further assistance is needed, please contact the VSH at their toll-free number, 1-888-327-4236. Thank you for your cooperation.

Frank S. Borris, II, Acting Chief  
Correspondence Research Division  
Enforcement

Enclosure: VOQ

Nov. 28, 2008

To Whom it may concern,

This letter is concerning my dear friend  
2000 Kia Sportage. I was riding  
in her car and in 4 hours that we were together  
part of the battery of her car comes off everytime  
we park the car and she would have to get out of  
the car and get a pen to poke the battery of the  
car to be able to let the car run.

Respectfully,  
[Signature]

Page #1

All copied for Leggett  
No - US Department of Transportation  
NHTSA

From the Day I bought the car on 12-12-07  
I backed the car out & there was a puddle  
of oil on the ground. I pulled back up  
and Got Jim & said what the heck is  
this on the ground. He said it's oil, just  
take it to 38th Ave Mechanics & have them  
fix whatever needs to be fixed. I will take  
care of whatever is wrong. I said who's going  
to pay for this. He said I will take care  
of it. I took the car & had my daughter  
pick me up for the day.

The mechanic said it was the  
Gaskets in the Engine leaking oil.  
He said it would take the day but  
he would fix it.

Head, Intake cover, & valve cover  
gaskets to be fixed.

The next day Oil Still So I thought  
it was the transmission oil or fluid

He cut the lines & put rubber hoses on  
they are leaking bad too!

The Alignment still Bad, Flats,  
Blow outs, GMS tank falling out from  
Bottom of car Rusted out, Hot Sape,  
Whole Dash Sticks, all Knobs stuck  
on the dash for heat, air, etc.

Window falling in on drivers side.  
(Not Fixed yet) cant afford.

& many pages proceeding this  
page. Read on please.

(Page 2)

Within a few weeks, driving to work again and came home all home I got another Flat, & went to tire store on 9th in Manatee Co, Bradenton & they changed my tire & I purchased another & they mounted the spare. January I went to start my car & it would not start, I opened my hood & the cable to my battery & the post was melted off my battery. Jim had my car towed to a shop off 9th in Bradenton & they were told to fix the problem. The one side of the cable or post wasn't even there, a wire wrapped around the Bolt on one side and cable & Post were melted off the other side.

They replaced the posts (2) and called the first 3 weeks of owning the car also the wipers were no question because when turned on they brushed hard over the paint & frame on the drivers side. When driving on 275 one day

when it was raining so hard, the wipers on, they flew off while driving leaving me with none putting me in danger once again. I called Jim & he told me to bring it back to 30th street auto repair to have them replace them & tell me what the problem was. The Motor was messed up but I was told "I am not going to continue to put money into this car!"

I said well then "Switch the car out" "Here's top Mary Problems!" "Just take it in & you'll have to paper put of them the same

#3

Explanation to me about the alignment again.  
I was to pay 42. The ropes were put on  
and zip tied on to keep them from  
flying off. Now replaced 3 hoses.

10/29/08 I brought the car to Park Auto  
Mall & had to have my car jumped to  
get it there because 10/28/08 & 10/29 - I  
couldn't get my car started again so  
I opened the hood & again problems  
with the cables & they put the car  
on a lift & checked the whole car out.

It was then I found out the baskets  
were never changed, the transmission  
lines were put on with rubber lines &  
zip tied on & leaking all over the place,  
The baskets (all 3) oil leaking, the bottom  
of the car was all rusted out, falling  
apart, the gas tank shield which holds  
up the gas tank was falling out (Tank  
Shield needed) \$40 repair & labor, The  
Battery Cables & Post I purchased again 28.00

Park auto worked on the battery, posts,  
cleaned it all up on 10/29/08. 10/1/08 back at  
Park Auto due to engine starting problems.

On 11/2/08 I was driving home from church  
and my driver window fell in. Scaring  
me to death while driving, I pulled over  
to calm down & pushed the electric buttons  
to try to get the window up & "Nothing!"

Nov 5, 08 Car wouldn't start again,  
Jumped twice that day (Wednesday)

#4

November 8, 08<sup>Sat.</sup> Back to Park Auto Mall  
to see if they could fix my window but  
Doris told they have to order a Regulator  
for my window. That will cost me another \$130<sup>00</sup>  
plus labor, they had to order the part in the  
mean time I went back Wednesday

- 11/12/08 to the mechanic could temporarily  
put the window up & "temporarily fix it to  
stay up until the part comes in!

11/16/08 Roommate jump started Car  
6:40pm car wouldn't start.

11/17/08 jump started Car 5:10pm at  
work so I could get home.

11/18/08 7:10 AM Had to wake roommate  
up to jump start car so I could get to work.

Called Park Auto Mall on the way home  
last night and spoke to Eddie Songales the  
Service manager whom has been handling  
Everything for me and been a blessing  
because they feel sorry for me so they  
have been fixing everything so far for  
free up until this week when he told me  
the regulator would cost 130<sup>00</sup> 11/18/08, the

part had to be replaced "again". I was  
quoted & given the part that once again  
was partially "melted" off the terminal once  
again. This will be the "Third Time Now!"

I have had to stop & lift my hood some  
times up to 7 times a day to put the part  
on the battery so I can have the car run.

(Reason)

#5

(From The Wise Guys Pamphlet)

I never test drove the vehicle nor was I ~~offered~~ offered to drive the vehicle, for if I had I would have seen the puddle of Oil under the car at that point, which was problem #1, The windows (Drivers window falling in while driving) & Motor of windows a problem #2, The Dash all knobs stick very badly as though every thing had been wet at one point which alerted me to ask about water damage #3, The back seat changed out (different color) all belts inside doors repainted which raised questions by all Mechanics & adjusters.

I brought the car to several mechanics since the purchase of the vehicle as well as asked several times including the day of purchase ~~for~~ for Jim to just trade it for another vehicle, a safe one, a vehicle without problems.

I took it to 30th Street Automotive 4 times, 10 9th Street Mechanics, to 3 Automotive places in St. Peter, to J & J auto body & National Auto, 3 M and Park Auto finally 6 times in the last 3 wks including last night to put the 3rd set of parts on (11/19/08) and today 11/20/08 starting at 9:41 am trying to open my hood 3 times throughout the drive, only to find my battery posts completely off. I went to start the vehicle, & nothing, so I opened the hood & that's when I saw the posts.

Michael  
Pencil

(#6)

Third time while driving home from Tampa  
Came to stop 1/2 way home & Car Shut  
down, lifted Hood & Posts of again!

What happens if while driving the  
Post or Posts pop off & the Power shuts  
down on my vehicle, as the mechanic put  
it, I'll tell you what he said happens,  
"The Car" Power will just shut down!

I don't know about you, but if the  
Power just shuts down and I'm driving  
at 30 to 60 miles an hour, and the  
Car, Truck or Train Behind me doesn't  
shut down, well I guess I get shut  
down! What is it going to take for  
this issue to get resolved, for me  
to die or someone else. It is simply  
ridiculous that when to need I spend  
Most of my days off at a Auto Dealership  
or mechanic.

On Dec 1, 08 I got a call from my  
Daughter at 8:00 am & November 30,  
08 late that she was having <sup>trouble</sup> problems  
with her pregnancy. I felt helpless  
because of my car, the cables & posts  
coming off my car every time I drive  
it and going dead I was afraid to  
drive it out alone long distance!

On Dec 1, 08 I got the dreadful  
Call that My daughter lost the Baby!

I Needed to go to her but I was  
afraid because I called the Mechanic  
and asked what will happen if I have  
an hour away! If the posts come

#1

After 10 minutes of driving, there was  
a X-brake which held for an hour.  
What would happen if the car will cut  
off, but the car behind me won't!!  
I had to go, so before I could go,  
I had to take my car to the mechanic  
at Park Auto Mall again, he charged  
the post again and tightened it as  
tight as he could so I could make it  
to my daughter who needed me.

I went & prayed the whole way.

Please, Please, all I want is  
my money back so I can  
go to a reputable establishment  
to get a ~~the~~ safe car & not have to  
worry every second I drive.

I also went over all my receipts  
& checked all my payments of which  
they have increased the ~~balance~~  
balance with a payment to show  
on paper & with the proof of the  
copies of receipts showing how the  
balance grows instead of decrease  
from the very first one paid on  
12-29-07, balance on contract  
\$2917.94 (no increase of or to 3117.<sup>00</sup>  
(charged after contract signed) to increases  
throughout the payment process.) and  
please charged or played with on the  
odometer reading shown in the car fax  
report even though it was only a few  
it was raised & then lowered & raised

118

again & All the foul Play Right  
from the day I was misled about  
this vehicle because I am a  
woman that knew no better & trusted  
this dealership because of knowing  
them for many years!

Please, Please, Help  
with a mediator or to get  
this rectified.

Sincerely,

Pinellas Park, FL

### Title and ProblemCheck

#### Your Vehicle Checks Out!

AutoCheck's database for this 2000 Kia Sportage Base / EX (KNDJB7238Y5) shows no negative titles or other problems. When reported to AutoCheck, these events can indicate serious past damage or other significant problems.

0 Problem(s) Reported:

15 Title/Problem areas checked:

- No abandoned title record
- No damaged title or major damage incident record
- No fire damaged title record
- No grey market title record
- No hail damage title record
- No insurance loss title record
- No junk or scrapped title record
- No manufacturer buyback/lemon title record
- No odometer problem title record
- No rebuilt/rebuildable title record
- No salvage title or salvage auction record
- No water damaged title record
- No NHTSA crash test record
- No frame damage record
- No recycling facility record

### OdometerCheck

#### Your Vehicle Checks Out!

AutoCheck examined the reported odometer readings reported to AutoCheck for this 2000 Kia Sportage Base / EX (KNDJB7238Y5) and no indication of an odometer rollback or tampering was found. AutoCheck uses business rules to determine if reported odometer readings are significantly less than previously reported values. Not all reported odometer readings are used. Title and auction events also report odometer tampering or breakage.

0 Problem(s) Reported:

Mileage	Date Reported	
<input checked="" type="checkbox"/> 31000	4/6/2004	
<input checked="" type="checkbox"/> 34209	7/19/2004

# Road Rangers

## What Road Rangers can and cannot do:

### Can:

- △ Help change your tire
- △ Give you one gallon of fuel
- △ Attempt to repair your vehicle as long as it does not take more than 15 minutes
- △ Allow you to use their cell phone for a short, local call to summon assistance
- △ Tow/push your vehicle to the nearest safe spot, off the roadway if necessary

### Cannot:

- ▽ Accept tips or gratuities in any form
- ▽ Provide "taxi" service
- ▽ Tow your vehicle to a garage or other facility

Call \*FHP for Road Ranger service.

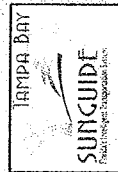

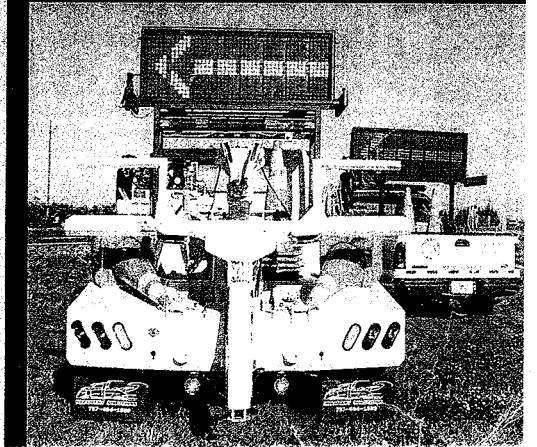

To E-mail comments or compliments regarding the Road Rangers, use: [roadrangers@tbsunguide.com](mailto:roadrangers@tbsunguide.com)

This card is in here, because at 65 to 70 M.P.H., while on 275, on my way home from a 12 hour day from work, I had a Blow Out with a Semi Behind me! I was stranded out there at an Exit north of 2nd for 2 1/2 hours, and thanks to 2 Wonderful State Troopers Whom stopped & stayed with me until the Road Rangers came, I was scared to death & UPSET at the same time.

When the Term "Blow Out" is used, this is mild in my case, because I have NEVER seen a Tire Blow To Pieces all the way around the Tire like this one! Many who saw the Tire said the shaking of the car & instability from the start. But I repetitively told them of the I am just a stupid woman because (was the comment made in the Background)
