To Whom It May Concern:

I owned a 2007 Nissan Sentra vin# 3N1AB61E57. After purchasing it from Middletown Nissan and driving it for 7 months, it caught on fire while I was on the highway. It was a very traumatic experience and as far as I know, it is still an ongoing investigation for the reason of the incident.

Recently I have received a recall notice on this vehicle concerning with the brake fluid leak. I am not a mechanic and do not know much about cars, but I do know that fluid and electricity do not mix. Please let me know if there is something that could be done.
