**To:** Test, Crash <NHTSA>  
**Subject:** faulty fuses

I have a 1994 grand am. Last summer we had problems with the door locks and it turned out to be the fuse; so we ended up replacing it with what we believed to be a harbor freight 15 amp fuse. Just recently a penny fell into the cigarette lighter and created a short and the fuse did not blow. This resulted in melting the wire harness. The car is now being repaired which is turning out to be quite costly. I was wondering if there is any way I could get help paying for this from Harbor Freight. The reason why I contacted you is I thought that this would be the best place to get advice; any reply would be appreciated thank you.
