Dear Sir or Madam CL-10268088-9035

I bought a Accent-hyundai car at March, 2008 in Hyundai Car dealer, Alexandria, VA. 22301.

During the last winter, the turning light switch was not working properly. that was very dangerous in early Morning & evening. I've complained several times <sup>to Hyundai</sup> and I left my car (accent) in Alexandria, VA hyundai car service part <sup>at</sup> twice & in ideal hyundai service part, Frederick, MD <sup>at</sup> once. totally three times. It ~~is~~ took 2 months.

But the problem is still there.

My car VIN is KMHCM36C98U [REDACTED], my name is [REDACTED].

In my thought. Any mechanics in Hyundai service part don't know the real reason (cause) of this malfunction.

I sent a mail <sup>Hyundai office</sup> ~~to~~ in that I demand Hyundai to refund or recall my car (accent) ~~is~~ as soon as possible.

This issue really really made me pissed off.

And in early morning (around 5:00 am), the malfunction of 'turning light switch' is so dangerous and ~~is~~ has made me extremely nervous many times.

I definitely ask you help me out.

I can not believe the fidelity and qualification of my accent. I really really would like to get a ~~is~~ refund. I don't want to ride my accent anymore because It's dangerous. Isn't it ? I have pick-up my baby everyday.

I wake up around 4:30 am because I live in frederick MD. and I don't <sup>want to</sup> be stuck in <sup>terrible</sup> I-270 traffic jam everyday. In every early morning, the switch is not working.
