Subject: 2005 Chrysler Pacifica

Hello,

We own a 2005 Chrysler Pacifica limited and over the past year have noticed they engine will randomly stall while turning. The dealership has no idea what the problem is and can't duplicate it when we taking it in to have it checked. However in doing some research I see it is not so uncommon.

Can you please provide us with any information we can use to bring to the dealer regarding this investigation of engine stall in the Pacifica?

Our contact information is:
