[REDACTED]
Temple Hills, MD [REDACTED]

Dear [REDACTED]

NVS-216 et
Ref. No. 10312434

Thank you for your correspondence that was received by the National Highway Traffic Safety Administration (NHTSA), Office of Defects Investigation (ODI) concerning your model year 2004 Nissan Maxima vehicle. In order to respond to the overwhelming number of letters received by ODI, we are answering you with this form letter.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or items of motor vehicle equipment when our investigations indicate that they contain safety defects in their design, construction, or performance. In order for the agency to initiate an investigation, we look carefully at the body of consumer complaints and other available data to determine whether a defect may exist. We cannot act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

We appreciate the report you provided. Reports from motorists are a very important source of information for us. Each report is analyzed and entered into a database to determine whether an investigation into a possible safety defect or safety defect recall adequacy is warranted. Enclosed is a booklet that describes the process your report goes through in determining whether an investigation should be initiated.

Clearly, transmission failures and the cost of their replacement is frustrating. While frustrating, the type of transmission problem you described is not related to motor vehicle safety within the meaning of our authorizing statute. The agency has no jurisdiction over non-safety defects, warranty, and remuneration matters. If you have not done so, you may consider contacting the Federal Trade Commission (FTC). The FTC has jurisdiction over non-safety

defects, paint, fraud or deception, warranty and dealership problems, remuneration matters, and fair trade practices. There are three ways you can contact the FTC: by toll free telephone at 1-877-FTC-HELP (1-877-382-4357); by mail at Federal Trade Commission, CRC-240, Washington, DC 20580; and by using the Internet complaint form at <http://www.ftc.gov/ftc/complaint.htm>.

Should you encounter a safety-related problem with a motor vehicle or item of motor vehicle equipment in the future, we would appreciate it if you would complete an electronic Vehicle Owner's Questionnaire online at <http://www.nhtsa.dot.gov/ivoq> or call the Auto Safety Hotline at 1-888-327-4236. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc. can be obtained at <http://www.nhtsa.dot.gov/cars/problems>.

Sincerely,

A handwritten signature in cursive script that reads "Randy Reid".

Randy Reid, Chief
