

Warren, MI

MAR 23, 2010

I hope you can help me. My parents were almost killed when their 2003 Tahoe blew up. I would of also lost both of my dogs in the explosion. My parents went to the doctors office and their Tahoe's fan motor would not shut off even though the car was shut off and the keys were not in the ignition. My father checked on the dogs in the car while he was waiting to be seen by the doctor.

After the appointment he got in the car, started it up and started to drive down the ~~side~~ road.

My mother told my dad the car was on fire, my father parked the car - attempted to put the fire out - received a 2nd degree burn on his hand, he got out and the car blew up.

My father has contacted Chris Swanson 313-667-7153 and has called him 3 times with No

CH# 10324248-6292

12 Reply. Amstut called her and received No call back. File # 71808448360 extension 41022

Nicki Jackson file # 68990918008880464 and she never returned by phone calls. Ms Jackson was very, very unprofessional. These are the people representing GM. My tax dollars bailed them out - and they have No Respect or gratitude for the consumer who helped bail them out.

They treat their consumers like garbage and have made an unsafe product - People should be warned about this. GM does not care about their Products.

PLEASE HELP Thank You
THAT NO ONE
OTHER PERSON'S GO
THROW THIS "REPLAY"
PLEASE
