

JUL 15 2010

Dear National Highway Traffic Safety Administration :

I need some critical information about a truck and hope you can help me. I need the stopping distance from 60-0mph. of a 1991' Nissan D21 hardbody (pick-up), kingcab, 4cyl, 4x4. Also any other information on the braking system, brake experts, or where I might be able to find this information. I am willing to buy it if it costs money, I just need to know or know where I might find it. I'd like to thank you in advance for all your time in consideration in this pressing matter. If you can help I implore you, thank you.

Sincerely,

ET
