Crash <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Fire <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Number of Persons Injured	Number of Deaths	Reported to Police N	
Narrative Description of Incident(s), Crash(es), and Injury(ies). Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure; i.e. parts repaired or replaced (and if old part is available).					
TL*THE CONTACT OWNS A 2004 VOLVO V70. THE CHECK ENGINE LIGHT ILLUMINATED INTERMITTENTLY. THE VEHICLE WAS TAKEN TO THE DEALER WHO DIAGNOSIS LOCATED THE FAILURE AS THE FUEL PRESSURE SENSOR. THE MANUFACTURER STATED THAT THE VIN WASN'T LISTED IN RECALL 07V226000 ENGINE AND ENGINE COOLING; THEREFORE, THEY WOULD NOT ASSIST WITH THE REPAIRS. THE FAILURE AND THE CURRENT MILEAGES WERE 84,000.

Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.			ATTACH ADDITIONAL SHEETS IF NECESSARY		
The Privacy Act of 1974 - Public Law 93-579 This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Dear Consumer:

NVS-216rr

As a follow-up to your report to the Vehicle Safety Hotline (VSH), we have recorded your information on the enclosed Vehicle Owner's Questionnaire (VOQ) form. Please review the form and make changes, additions and corrections as necessary. Additionally, please provide a more detailed description of the failures(s) you reported that you believe relevant to safety. Also, if available, include copies of repair invoices, letters to the manufacturer, or any other document related to the problem(s) you reported. If a crash or fire occurred, include a copy of the police or fire department report.

It is helpful to be as thorough as possible in your report so that our ability to use your report will be maximized. If you do not have the information, it is not necessary to complete all the boxes. However, it is very difficult to identify the scope of a vehicle problem unless the vehicle identification number (VIN) is known. The VIN is located inside the vehicle on the dashboard adjacent to the left (driver's side) of the windshield pillar and on the drivers' door or the driver's door jam. It may also be listed on a dealer repair invoice or your insurance or registration cards. When reporting a tire problem, the brand name, tire line and complete tire size should be included. Be certain to provide the DOT tire identification number. It is usually located near the rim flange of the tire on either side of the tire.

We do not make your personal information (name, address, phone numbers, etc.) available to the general public. However, if we open an investigation that involves your vehicle, we will provide the manufacturer of your vehicle with a complete copy of your report. The information you provide may assist the manufacturer and NHTSA in determining if a safety-related defect exists.

Any information provided is entirely voluntary. There is no consequence or penalty of any kind if you do not wish to provide it. We seek this information to develop both statistical and investigative evidence that will help identify potential safety related problems in vehicles or vehicle equipment, e.g., tires, child safety seats, jacks, etc.

When completed, please fold and staple or tape the form so that the pre-addressed portion of the form is on the outside. If a larger envelope is used, tape the VOQ form to the larger envelope so that the pre-addressed portion of the form is showing.

If further assistance is needed, please contact the VSH at their toll-free number, 1-888-327-4236.

Thank you for your cooperation.

Sincerely,

Randy Reid Chief

Please see attached.
Thank you,

**Fuel Pressure Sensor: All Technical Service Bulletins
Recall 07V226000: Fuel Pressure Sensor Replacement**

MAKE/MODELS: MODEL/BUILD YEARS:

Volvo/S60 2003-2004

Volvo/V70 2003-2004

MANUFACTURER: Volvo Cars of N.A. LLC.

NHTSA CAMPAIGN ID NUMBER: 07V226000 MFR'S REPORT DATE: May 24, 2007

COMPONENT: Engine and Engine Cooling

POTENTIAL NUMBER OF UNITS AFFECTED: 38700

SUMMARY:

On certain passenger vehicles, the fuel pressure sensor located on the left end of the fuel rail may, at times, transmit incorrect signal regarding the fuel pressure to the engine control module. If the signal is outside of the pre-programmed allowable limits, a diagnostic trouble code may be set and the check engine light will come on. The soldered joints on the circuit board of the fuel pressure sensor may crack due to temperature changes and excessive vibrations.

CONSEQUENCE:

Misfire may occur during driving that, in turn, will reduce the engine torque and in the worst case scenario, the engine may stall without warning. In certain traffic situations this could cause an unsafe situation and possibly a crash.

REMEDY:

Dealers will replace the fuel pressure sensor free of charge. The manufacturer has not yet provided an owner notification schedule for this campaign. Owners may contact Volvo at 1-800-458-1552.

NOTES:

Volvo recall No. R181. Customers may contact The National Highway Traffic Safety Administration's Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.
