Washington, DC 20590

Dear Sirs,

Enclosed is a 52 spoke Mammoth Wheel which was manufactured by **DNA Specialty Inc**, located at 1415 West 178th Street, Gardena, CA 90248-3201. While riding the wheel has failed. I have contacted DNA over and over again, the owner, Mr. Choi has repeatedly refused my calls and his office manager Rena, has done nothing to assist. Attached also are articles from various websites, where the same wheel has repeatedly failed other Harley Davidson owners and the same response from DNA to everyone.... they are not willing to stand behind their product. I am asking the Department of Transportation to launch a national product recall.

I know several riders that have that same wheel on their bike, some of them experienced and some of them not. If you continue to let this wheel stay on the road, something tragic will happen. Please take the time to read the articles, from other folks and their experience with DNA.

Thanks in advance for you assistance. If you should need to contact me please contact me at [REDACTED] or [REDACTED] at [REDACTED]

Regards,

[REDACTED]  
Concerned Consumer
