Elgin, IL [REDACTED]

Dear Sir or Ms,
I own a 2007
chevrolet Malibu V6 with electric
power steering.

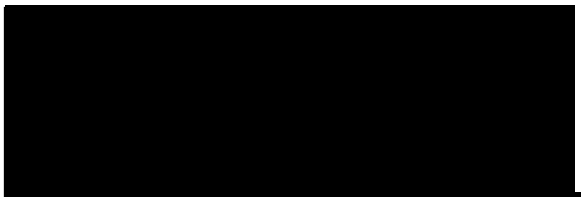

The power steering stops working
very often, and this is happening
on a large number of GM vehicles.

General Motors has issued recall
on some models, and I would like
to know if my vehicle is on a
recall list.

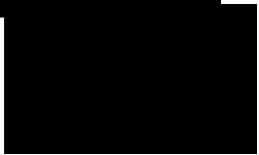

This is a dangerous mechanical
defect that could cause loss
of control. My vin is 1G1ZT58N67F [REDACTED]

Thank you for your assistance,
[REDACTED]
