

NHTSA

2001 Jeep Wrangler

9

I believe my vehicle has a defect that could cause a crash or cause injury or death.

The FRAME is RUSTED & cracked.

I went to Good Year to have tires put on. 4 techs wouldn't do it. They said the frame will break if we put it on the rack (lift).

They said I shouldn't be driving this jeep. What am I supposed to do???
