

APR 26 2011

National Highway Traffic Safety Administration (NHTSA)

Jeep Wrangler 2001

I am writing because I do NOT have a computer or phone. My jeep has MANY defects. I believe defects that can cause a crash or injury.

- ① Frame is rusted almost totally threw passenger side.
- ② horn hasn't worked in years.
- ③ Air bag light is always on, has been for years.
- ④ cruise control hasn't worked for years.

I think Jeep should have to fix these problems without charge to me.

Could you mail me a list of Re-calls for my vehical please? Please make these re-calls if they aren't now.

Thank you,
