Dear [REDACTED]

Thank you for your correspondence concerning your model year (MY) 2009 Toyota Camry vehicle. Your correspondence was received by the National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or motor vehicle equipment when our investigations indicate that they contain serious safety defects in their design, construction, or performance. However, we cannot act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

We appreciate the report you provided. Reports from motorists are a very important source of information for us. In your correspondence, you indicate difficulties in connecting the seat belts in your MY 2009 Toyota Camry vehicle. You believe auto manufacturers should extend the height of the buckle receptors in vehicles to enable seniors to easily fasten their seat belts.

We have reviewed our database in an effort to identify whether a safety defect trend exists with regard to the seat belt problem you encountered in your MY 2009 Toyota Camry vehicle. At this time, there is insufficient evidence to warrant opening a safety defect investigation. Your suggestion to heighten seat belt receptors will be submitted to the appropriate staff member of NHTSA's Office of Rulemaking for their review. For your information, we have enclosed a brochure explaining the investigation process which can also be found on our web site at: www-odi.nhtsa.dot.gov/cars/problems/recalls/recallprocess.cfm. The information you provided has been entered into our database and will be considered with future reports to identify any safety defect trends that may require our attention.

Should you encounter a safety-related problem with a motor vehicle or motor vehicle equipment in the future, you can complete an electronic Vehicle Owner's Questionnaire online at <http://www.nhtsa.dot.gov/ivoq>. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc., can be obtained at <http://www.nhtsa.dot.gov/cars/problems>.

Sincerely,

A handwritten signature in cursive script that reads "Randy Reid".
