Subject: steering 2011 BMW X3X35i

6/10/11, Got the car back from the BMW dealer. They found that a belt in goodyear 245/45/19 eagle LS2 102v had shifted, and performed a 4 wheel alignment 2nd time, in two weeks. The goodyears have a lot of problems with them. they should be recalled very unsafe. Your agency has numbers of complaints concerning this tire. I will let you know if steering problem returns. Best Regards [REDACTED]
