Dear Sir:

SUBJECT: 2004 Honda Civic 4DR LX
2HGES16514H [REDACTED]
Safety Defect

I am the owner of the above registered vehicle which I had purchased new at Coast Honda, Rt. 34 & Spring Lake Circle, Allenwood, New Jersey, 08720. I am aware that for the period of 2001 through 2003, that vehicle has a safety defect in the airbag system. The light on the instrument panel remains on indicating a problem in the airbag system. Those cars can have the problem resolved at a Honda dealership and their warranty extended with no cost incurred by the owner. I am experiencing the same problem with my 2004 Honda Civic - the light on the instrument panel, indicating a problem with the airbag system came on and will not go out.

It would be appreciated if you would consider opening up an investigation into this matter, as I strongly feel that a safety defect exists in my vehicle. Thanking you for your anticipated assistance in this matter.
