Subject: Honda Pilot 2011 Passenger Frontal Airbag Seat Inflator Recall VIN 5FNYP3H44BB [REDACTED]

Please be informed that on July 18, 2016, I contacted a local Honda dealer regarding matter shown above. They informed me that it would take no more than three weeks to have it repaired, but more than sixty (60) days had passed, and as of this date, Honda Motor Company have not replied to my various requests for service nor they have remedied this defect on my vehicle.

Thanks for your attention to this matter.

Sincerely yours,

[REDACTED]
