Re: 1999 BMW K1200LT final Drive Failure

To Whom It May Concern:

Please be advised that I owned a 1999 BMW touring motorcycle, Model K1200LT that suffered the beginnings of a final drive failure to the Power Train which I understand is the same failure as described n ODI no. 1043549 currently being investigated under Campaign DP12001 . Also, It leaked gear oil.

It was severely damaged in a freak accident on the way to the dealers repair shop, so I had them repair it and sell it for me. As I sold it in 2006, I no longer have any of the data for it.

I hope this information is helpful in your investigation into the potential defect.
