Re: Time and Manner of Recall Notifications

Dear Mr. Friedman:

We are requesting NHTSA policy when a auto manufacture is to file a recall with the public.

**Is a six years delay in recall car violation of parts 573, 577 and 579? If so why.**

NHTSA standards and regulations are included in Part 573, Part 577 and Part 579. Is it delayed responsibility, notification and reports when a manufacture delay in six (6) years before given notice. The reason for the delay is because the manufacture did not recall all of the vehicle Platform and shared platform vehicles.

**Can you send me with copy of what NHTSA poliy. This manufacture had a recall six year earlier, but did not include the entire fleet of vehicle with defects.**

Thank you
