Importance: High

I believe this consumer might be referring to an IVOQ submitted by [REDACTED] on 8/23/12 -- [10472055](#).

Summary:

WAS SLOWING DOWN FOR UPCOMING LIGHT AND OUT CORNER OF MY EYE SEEN DEER LEAP OVER TALL GRASS ON LEFT ONCOMING SIDE OF ROAD, WAS ALREADY AT 40 MILES HIT BRAKE TO HOPEFULLY NOT HIT HER 80 BY THE TIME SHE AND I HAD IMPACT THE VEHICLE WAS GOING BOUT 35 MILES HR. TORE UP RIGHT SIDE OF FENDER, DOOR, HOOD, FRONT GRILL, AND SOMETHING TO DO WITH THE MOTOR, THE SENSOR LIGHTS NOW KEEP COMING ON SHOWING AIRBAG ABC, SEATBELT THE SERVICE LIGHT COMES ON AND THEN GOES OFF. HAVE HAD IT CKED WITH MACHINE AND IT SHOWS A RECALL ON THE LIGHTS IF A CRASH OCCURS IT WILL MAKE THEM MALFUNCTION. *TR

The only Recall I see for a 2003 GMC Sonoma ([REDACTED] has a 2003 Sonoma Crew) is [04V-132](#), regarding an air bag warning label ... nothing about malfunctioning lights "if a crash occurs".

Summary:

CERTAIN PICKUP TRUCKS AND SPORT UTILITY VEHICLES FAIL TO COMPLY WITH THE REQUIREMENTS OF FEDERAL MOTOR VEHICLE SAFETY STANDARD NO. 208, "OCCUPANT CRASH PROTECTION."

Consequence:

SOME OF THESE VEHICLES INCLUDE INCORRECT STATEMENTS ON ONE OF THE AIR BAG WARNING LABELS.
