INFORMATION Redacted PURSUANT TO THE FREEDOM OF INFORMATION ACT (FOIA), 5 U.S.C. 552(B)(6)

January 8, 2013

[redacted]

Leesburg, FL [redacted]

NVS-216 nlm
Ref. No. 10480485

Dear [redacted]

Thank you for corresponding again with the National Highway Traffic Safety Administration (NHTSA) concerning your model year (MY) 1995 Ford F250.

You would like to know if recall number 07S57 has been revised to recall number 07V-553 and if there is any difference in the content of the two recalls. Recall 07S57 represents Ford's unique recall number. Recall 07V-553 represents NHTSA's unique recall number. Both numbers can be used to identify the recall that addresses defective camshaft position sensors and stalling in Ford trucks equipped with 7.3L diesel engines.

Should you encounter a safety-related problem with a motor vehicle or motor vehicle equipment in the future, you can complete an electronic Vehicle Owner's Questionnaire online at www.nhtsa.dot.gov/ivoq. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc. can be obtained at www.nhtsa.dot.gov/cars/problems.

Sincerely,

Randy Reid
