To Whom It May Concern:

Accident at Choo Choo's Restaurant in Flushing Michigan

In April 2012, I turned into the parking lot of Choo Choo's Restaurant. As I was turning in all of a sudden my Chevrolet Cruze shot forward giving me no time to react with applying the brake. I hit the planter box. The planter box was made with 2x6's enclosing soon to be plants which stopped me from going thru the wall of the restaurant.

I was very shaken up by the experience and made sure to get my Cruze to a General Motor's certified repair center. I paid my \$500.00 deductible and Applegate Chevrolet repaired the car with the help of my Frankenmuth mutual insurance that covered the rest of the balance of \$1,396.00 required to have it paid in full. I have been driving for over sixty years without being in an accident. My auto insurance has now raised my rate from \$927.00 to \$2080.00 I am asking that General Motors to give me a reasonable insurance rate on my new vehicle, 2013 Malibu at a more reasonable rate, similar to what I would be paying if I would not have had to make a claim on my insurance from the faulty Cruze. I would like to pay for reasonable insurance rate on my new Malibu. I have faith in the General Motors; this is why I chose to continue with GM. I also have it under a good understanding that there is at least one other customer that bought their Chevrolet Cruze at Patsy Lou that had a very similar situation happen to them with the vehicle having a mind of it's own (accelerating). I am just asking for you to meet me half way. Thank you very much for your time and I look forward to working this out.

Sincerely,

# SAFETY RECALL NOTICE

12133 1G1PC5SH1B7 [redacted] 13 0002393

FLUSHING, MI [redacted]

*Done with  
 Repair Done*

July 2012

Dear [redacted]

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that a defect, which relates to motor vehicle safety, exists in certain 2011 model year Chevrolet Cruze vehicles. As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

## IMPORTANT

- Your 2011 model year Chevrolet Cruze, VIN 1G1PC5SH1B7 [redacted], is involved in safety recall 12081 and 12133.
- Schedule an appointment with your Chevrolet dealer.
- This service will be performed for you at **no charge**.

### Why is your vehicle being recalled?

Welds may have been omitted that affect the fuel tank strap secondary bracket attachments. ~~With this condition, the Cruze meets all federal safety requirements but failed an internal GM test requirement.~~ The fuel tank could come loose in a crash, possibly allowing fuel to leak from the tank. A fuel leak in the presence of an ignition source could result in a fire.

Spilled or dripping oil (such as after an oil change) may collect in the engine shield (belly pan) near hot engine or exhaust system surfaces. As a result, the oil and the engine shield may ignite and burn.

In addition, on vehicles with a manual transmission, continuing to drive with a completely worn clutch may cause hydraulic fluid to be expelled from the clutch housing vent hole. Under certain circumstances, the fluid could be burning as it exits the vent hole. If the burning fluid contacts the engine shield, the shield may ignite and burn.

### ODOMETER DISCLOSURE STATEMENT

Federal Law (and State law, if applicable) requires that the lessee disclose the mileage to the lessor in connection with the transfer of ownership. Failure to complete or making a false statement may result in fines and/or imprisonment. Complete the disclosure form below and return it to the lessor.

I, X A1 state that the odometer now reads 9091 miles and to the best of my knowledge that it reflects the actual mileage of the vehicle described above, unless one of the following statements is checked:
