Ref. No. 10497696

Dear [REDACTED]

Thank you for your correspondence concerning your model year (MY) 1999 Acura TL vehicle. The National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation received your correspondence. We regret any inconvenience our delay in responding may have caused you.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair motor vehicles or motor vehicle equipment when our investigations indicate that they contain safety defects in their design, construction, or performance. We also monitor the adequacy of manufacturers' recall campaigns. In order for the agency to initiate an investigation, we look carefully at the body of consumer complaints and other available data to determine whether a defect trend may exist. We do not have authority to act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

You indicate that while attempting to park your MY1999 Acura TL in your garage the vehicle suddenly accelerated in reverse and then forward although you had your foot on the brake pedal. You crashed into your garage which resulted in damage to the garage and items stored inside. In addition, you sustained injuries in the crash and your vehicle is a total loss.

We have reviewed our database in an effort to identify whether a safety defect trend exists with regard to unintended acceleration or brake problems in MY 1999 Acura TL vehicles. At this time, there is insufficient evidence to warrant opening a safety defect investigation. The information you provided has been entered into our database. It will be considered with future reports to identify any safety defect trends that may require our attention.

The issues concerning Acura and your insurance company do not fall under our jurisdiction. If you have not done so, you may consider contacting your local Consumer Protection Agency or the Pennsylvania Office of the Attorney General regarding your problem and rights under the State law. In addition, the Federal Trade Commission (FTC) has jurisdiction over remuneration matters, and fair trade practices. There are three ways to contact the FTC: by toll free telephone at 1-877-FTC-HELP (1-877-382-4357); by mail at Federal Trade Commission, CRC-240, Washington, DC 20580; and by using the Internet complaint form at www.ftccomplaintassistant.gov.

You may also consider contacting the Better Business Bureau (BBB) Auto Line. The BBB offers free mediation/arbitration to resolve warranty disputes under guidelines established by the FTC. Remedies include repair, reimbursement, repurchase or replacement, depending on program eligibility. You can visit their web site at www.bbb.org to file a complaint and review eligibility information, or call the BBB Auto Line at 1-800-955-5100.

Should you encounter a safety-related problem with a motor vehicle or motor vehicle equipment in the future, we would appreciate it if you would complete an electronic Vehicle Owner's Questionnaire online at www.nhtsa.gov or call the Auto Safety Hotline at 1-888-327-4236. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc. can be obtained at our web site.

Sincerely,

A handwritten signature in black ink that reads "Randy Reid". The signature is written in a cursive, flowing style.

Randy Reid, Chief
Correspondence Research Division
