EXECUTIVE SECRETARIAT

Dear Ford Motor Company, P 3: 10

My name is [REDACTED] and

I own a 2007 Ford Fusion.

About a year ago the dashboard
around the passenger side airbag
came unglued and is sticking
up. The warranty is expired
and I was told it would be
\$1100.00 to replace the entire dash
board. I don't have the money
for that and I now have it
taped up with duct tape.

I am afraid that it might
be a safety hazard because the
airbag may not come out if
needed or may prematurely

ET
2/1/13
and

deploy. If I have a passenger in that seat they will not be protected properly.

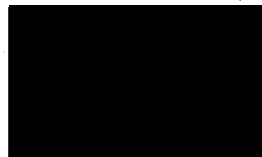

I wondered if there have been any other complaints or concerns about this.

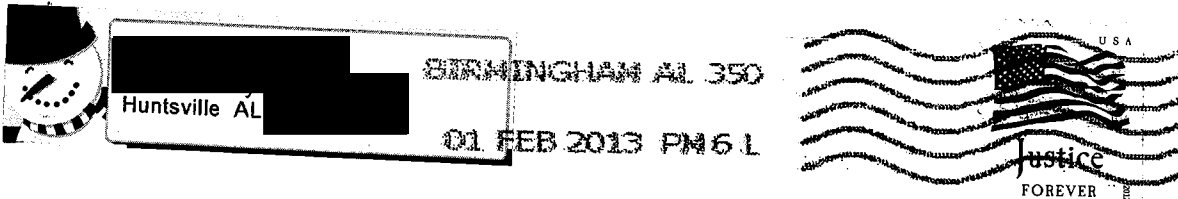

I love my car and my dealership Woody Anderson Ford are the best. They always treat me right. I have bought my Fords there for years.

I would appreciate any information.

(The car was purchased new)

Thank You,
