Hi I purchased a Silver 2005 Nissan Maxima SE with 88k Miles from Mount Eden Motors on November 13, 2012. Since having this vehicle in this time I have spent nearly \$2,000-2,500 in repairs. The most notable repair that I will need to make will be the transmission which slips in a scary fashion. I have had to drain and fill to assist with gears slipping. This is unfortunate as I like this car however, being the father of two am looking for the safety and well being of my children. I thought that when I purchased this vehicle in as is condition that did not mean that I was driving away with a car that might put my family and I in danger. A vehicle which can slip and lock while driving is a hazard to many. Something needs to be done about this right away. Had I known that this vehicle had such a poor history I would have not purchased it. Please contact me.

Sincerely,
