JUL 15 2013

To whom it may concern;

I am writing to get some information on the auto recall policy.

On veiwing the website it stated that my vihicle was on the recall list for numerous defects. I haven't received a notification from a dealer or the manufacture for repairs.

I own a 98 Monte Carlo that I purchased used. I 've had problems past and at present pertaining to the recall agenda in which I have made repairs.

By it being a used vihicle who do I consult to determine if any repairs was performed on the vehicle.

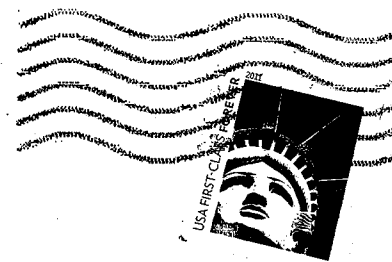

Sincerely yours
[REDACTED]
