Please See Attached Recall Notice & Complaint # 10544584
no Date on it - (fins this kind of strange and in there favor)
Also Just cant understand how we let them get away with the excuse of
Do NOT Have the Parts for this Repair as of yet.
Maybe if we had a Date on Recall and a deadline for Parts
we could move forward.
maybe it less money for them for someone to get hurt.!!
they Guys Lets Get the United states back on track
lets start somewhere.

SAFETY RECALL M35/NHTSA 12V-527
AIRBAG SYSTEM OCCUPANT RESTRAINT CONTROL MODULE

Dear [REDACTED]

This interim notification letter is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Chrysler has decided that a defect, which relates to motor vehicle safety, exists in some **2002 through 2003 model year Jeep® Liberty** and **2002 through 2004 model year Jeep® Grand Cherokee** vehicles.

The problem is... The Occupant Restraint Control (ORC) module installed in your vehicle (VIN: 1J4GW48S02C [REDACTED]) has a small chance of experiencing an electrical overstress condition. Should this overstress condition occur, it could damage one of the ORC's computer chips. A damaged computer chip could cause the airbag light to illuminate, followed almost immediately by an inadvertent deployment of the front airbags (Liberty and Grand Cherokee) or side airbag curtains (Grand Cherokee only). Inadvertent deployment of the airbags may increase the risk of injury and the possibility of a vehicle crash.

What Chrysler is doing.... Chrysler intends to repair your vehicle free of charge (parts and labor). Unfortunately, the parts required to provide a permanent remedy for this condition are currently not available. Chrysler is making every effort to obtain these parts as quickly as possible. Chrysler will contact you again by mail, with a follow-up recall notice, when the remedy parts are available.

NOTE: The AIRBAG warning light will go on for a few seconds after you start your vehicle and then goes out. This is part of the self-test diagnostics of the airbag system and indicates the airbag system is functioning properly. No action on your part is required for this condition.

What you must do to ensure your safety... Once you receive your follow-up recall notice in the mail, simply **contact your Chrysler, Jeep or Dodge dealer** right away to schedule a service appointment. Ask the dealer to hold the parts for your vehicle or to order them before your appointment.

If you need help... If you have questions or concerns which your dealer is unable to resolve, please contact the Chrysler Group Recall Assistance Center at 1-800-853-1403.

Please help us update our records by filling out the attached prepaid postcard, if any of the conditions listed on the card apply to you or your vehicle. You may also update this information on the web at www.jeep.com/ownersreg.
