Re: Our Client: [REDACTED]
Date of Loss: 2/1/13

To Whom it May Concern:

Our clients purchased a used 2006 Thor Jazz Traveler RV, CA license plate No. [REDACTED] VIN Number 4XTTS25276C [REDACTED]. It is our understanding that this vehicle was recalled in 2007 for excessive vehicle sway (Please see attached recall). It is our understanding that dealers were required to install weight compensating steel to the trailer a- frame and reinforce the axle (Please see the attached recall notice). We are attempting to determine if our client's vehicle was fixed pursuant to the recall.

Thor sold its Jazz RV division and they company that purchased it went bankrupt. Therefore, we have no one to determine if this particular RV was fixed. I am requesting all recall conditions for this RV. I am also requesting any information that establishes where this RV was fixed subject to the recall. Should you have any questions concerning this correspondence or other matters, please contact the undersigned at (714) 547-1234 or email at dpirozzi@rizioandnelson.com.

Very truly yours,

There have been 2 recalls on the 2006 Thor California Jazz. The most recent recall was on Jul. 17, 2007.
The recalled component was structure.

2006 Thor California Jazz structure recall

Recall Date:	Jul. 17, 2007
Recalled Component:	Structure Manufactured by: Thor California Inc. Date of Manufacturing: From Mar. 12, 2005 to Nov. 1, 2007
Units Affected:	149
Defect Summary:	On certain travel trailers, under certain load and speed conditions, excessive vehicle sway could develop leading to a loss of vehicle control.
Consequence:	This loss of control could lead to a vehicle crash resulting in personal injury or death.
How to Fix:	Dealers will install weight compensating steel to the trailer a-frame and reinforce the axle hangers if necessary. The trailer weight certification labels will be replaced with new weight certification labels. Owners will also receive a guide to trailer loading and weighing to help them properly load and weigh the trailer. The recall began on July 17, 2007. Owners may contact thor California at 1-888-697-8467.
Recall Notes:	Thor recall no. 150006. Customers may contact the national highway traffic safety administration's vehicle safety hotline at 1-888-327-4236 (tty: 1-800-424-9153); or go to http://www.safercar.gov .

2006 Thor California Jazz recreational vehicle lpg furnace recall

Recall Date:	Jun. 15, 2006
Recalled Component:	Recreational vehicle lpg furnace Manufactured by: Thor California Inc. Date of Manufacturing: From Feb. 1, 1996 to Feb. 10, 2006
Units Affected:	64,000
Defect Summary:	On certain travel and fifth wheel trailers equipped with suburban and atwood furnaces, the furnace exhaust vent was improperly installed. The furnace exhaust vent will allow leakage of fumes which contain combustion products, including a high concentration of potentially lethal carbon monoxide gas.
Consequence:	Fumes could enter into the trailer and could result in serious injury or death.
How to Fix:	Owners will receive instructions on inspecting the furnace vent. If an owner believes the vent is installed incorrectly, is not sure how to inspect the furnace exhaust vent, or needs assistance in getting the furnace exhaust vent installation inspected and corrected, owners should contact thor immediately at 1-877-870-2638 or via the internet at http://www.Thorca.Com . The recall began on June 15, 2006.
