AS of February 27th my Insurance company has totaled my van due to extensive repairs having to be made in excess of \$6,800.00. both of the main wiring harnesses were burnt up and the computers were also damaged along with the fuse block. If I would have been driving this vehicle at the time of the fire I could have been killed due to lack of power to steering and control of braking etc. God was with me because the fire was in my driveway.

Dodge would not own up to any responsibility in regards to the fire and claim.
