You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.			

when pulling into traffic & depressing the accelerator the engine just idles for a few seconds. Then all at once it takes off. You never know when this is going to happen. Sometimes often, sometimes not. The first time i took it to the dealer they couldn't find anything. The second time i left it with them for a couple days & they said they instaled a new throttle bore on it. It didn't help any.
