Subject: Re: FW: NHTSA: Follow up to ODI Complaint: ----10584604-----

The problem was a rear brake caliper froze up when driving only .3 of a mile to have the camper serviced (oil & filter change). Camper had not been used or driven in more than 3 months. This brake caliper freeze up is identical to the problems covered by an earlier recall of this same model camper. The cost to repair was \$400.00 +.
