ATTACH ADDITIONAL SHEETS IF NECESSARY					
The Privacy Act of 1974-Public Law 93-579 This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.					

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

The gas pedal doesn't engage smoothly when starting out from a stand still. This gas pedal hesitation when initially starting out sometimes causes the vehicle to surge and has done this since we originally purchased the vehicle new in July of 2007. I have spoken several times to Toyota's Service Dept. and Customer Service without any success or satisfaction. We are the original and only owners of the car.

Thank You
