[REDACTED]
Yellow Spring, WV [REDACTED]

NEF-109 nam
Ref. No. 10595487

Dear [REDACTED]

Thank you for your correspondence concerning your model year (MY) 2013 Honda Fit. Your letter was forwarded to the National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation. We regret any inconvenience this delay may have caused you. Last year our office received an unprecedented increase in the number of correspondence due to the Takata air bag recalls. Our limited resources were overwhelmed and we are now just getting to your letter.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair motor vehicles or motor vehicle equipment when our investigations indicate that they contain safety defects in their design, construction, or performance. We also monitor the adequacy of manufacturers' recall campaigns. In order for the agency to initiate an investigation, we look carefully at the body of consumer complaints and other available data to determine whether a defect trend may exist. We do not have authority to act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

NHTSA is aware of Honda's delay in producing the air bag inflators. The recall addresses a problem with air bag inflators produced by Takata that may rupture in a frontal crash and disperse metal fragments. Please note that it is not unusual for manufacturers to have an inadequate inventory of recall parts or a final remedy shortly after a recall is announced. Recall parts availability and recall remedies can be affected by numerous factors including, but not limited to, redesign, testing, manufacturing, and logistics. We have enclosed a brochure explaining NHTSA's investigation and recall process, which is also on our website at www-odi.nhtsa.dot.gov/recalls/recallprocess.cfm. Unfortunately, the large volume of reports received by the Agency does not permit a return call for each report filed.

There are currently 46 million recalled Takata air bag inflators in 29 million vehicles in the United States. Under an Amended Consent Order issued to Takata in May 2016, automakers will be required to recall additional inflators over the next 3 years, ultimately affecting approximately 64 to 69 million inflators in 42 million total recalled vehicles. The Takata recall is the largest, most complex recall in NHTSA's history. Under the Consent Order,

Takata has agreed to Federal oversight for the next 5 years, to phase out the use of the propellant believed to be related to the air bag inflator ruptures, and to pay record civil penalties up to \$200 million. For the most up-to-date information on the Takata recalls, your constituent should visit our website at www.safercar.gov/rs/takata/index.html.

Chapter 301 of Title 49 of the United States Code (U.S.C.) requires a manufacturer of motor vehicles or motor vehicle equipment that contain a defect relating to motor vehicles safety or fail to comply with a Federal motor vehicle safety standard to remedy the defect or noncompliance without charge. However, our statute does not require manufacturers to reimburse owners for additional costs associated with a safety recall (e.g., lost wages while vehicle is being repaired, car rentals, repairs not performed by an authorized dealership, damage caused by the defect, etc.). We recommend using our VIN lookup tool periodically, to access recall information provided by the manufacturer conducting the recall which may be not posted yet on NHTSA's site (www.nhtsa.gov/recalls). We can confirm that NHTSA Safety Recall Campaign No. 16V-061 (copy enclosed) is not completed as of this date. The remedy is available and you should contact your local dealer to schedule and order a remedy part for your vehicle.

Please note that vehicle issues concerning warranty, maintenance, dealer customer service, and reimbursement claims do not fall under NHTSA's jurisdiction. We do not have authority to act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers. You may consider contacting your local Consumer Protection Agency, Better Business Bureau, Federal Trade Commission, or the Office of Attorney General in your State for assistance regarding these matters. Should you encounter a safety-related problem with a motor vehicle or motor vehicle equipment in the future, we would appreciate it if you would complete an electronic Vehicle Owner's Questionnaire online at www.nhtsa.dot.gov/ivoq or call the Auto Safety Hotline at 888-327-4236.

Sincerely,

Randy Reid, Chief
Correspondence Research Division
Office of Defects Investigation
Enforcement

Manufacturer Recall Number JY1

NHTSA Recall Number 16V-061

Recall Status Recall Incomplete

Summary

AMERICAN HONDA MOTOR CO., INC. (HONDA) IS RECALLING CERTAIN MODEL YEAR 2011-2014 CR-Z, 2010-2014 FCX CLARITY, 2009-2013 FIT, 2013-2014 FIT EV, 2010-2014 INSIGHT, AND 2007-2014 RIDGELINE VEHICLES. THE DRIVER FRONTAL AIRBAG INFLATOR IN YOUR VEHICLE MAY RUPTURE WHEN DEPLOYING DURING A CRASH. THE POTENTIAL FOR SUCH RUPTURES MAY OCCUR INSOME OF THE SUBJECT AIRBAG INFLATORS AFTER SEVERAL YEARS OF EXPOSURE TO PERSISTENT CONDITIONS OF HIGH ABSOLUTE HUMIDITY.

Safety Risk

THE DRIVER'S FRONT AIRBAG INFLATOR, WHEN DEPLOYING IN A CRASH, COULD RUPTURE AND BREAK APART, SENDING METAL FRAGMENTS THROUGH THE AIRBAG CUSHION MATERIAL TOWARDS YOU AND YOUR PASSENGERS, POSSIBLY CAUSING SERIOUS INJURY OR FATALITY. IT IS IMPERATIVE YOU SCHEDULE AN APPOINTMENT WITH AN AUTHORIZED HONDA DEALER NOW TO AVOID THIS CONDITION IN THE FUTURE.

Remedy

PLEASE CALL ANY AUTHORIZED HONDA DEALER AND MAKE AN APPOINTMENT TO HAVE YOUR VEHICLE REPAIRED. YOUR DEALER WILL REPLACE THE DRIVER'S FRONT AIRBAG INFLATOR WITH AN INFLATOR OF A DIFFERENT DESIGN, FREE OF CHARGE. FOR ADDITIONAL INFORMATION AND ASSISTANCE IN LOCATING A HONDA DEALER, PLEASE VISIT WWW.RECALLS.HONDA.COM OR CONTACT HONDA AUTOMOBILE CUSTOMER SERVICE AT 1-888-234-2138. HONDA'S CAMPAIGN NUMBER FOR THIS RECALL IS JY1.

Manufacturer's Notes

If the manufacturer has failed or is unable to remedy this safety recall for your vehicle in a timely manner,

please contact the NHTSA Vehicle Safety Hotline at: 1-888-327-4236 or

TTY: 1-800-424-9153 or file an online complaint with NHTSA.

Where's my VIN?

Look on the lower left of your car's windshield for your 17-character Vehicle Identification Number. Your VIN is also located on your car's registration card, and it may be shown on your insurance card.

What this VIN search tool covers

- Vehicle safety recalls that are incomplete
- Vehicle safety recalls conducted over the past 15 calendar years
- Vehicle safety recalls conducted by major light auto automakers, including motorcycle manufacturers.

What this VIN search tool does not cover

- Completed safety recall information
- Manufacturer customer service or other nonsafety recall campaign
- International vehicles
- Very recently announced safety recalls for which not all VINs have been identified

- Safety recalls that are more than 15 years old (except where a manufacturer offers more coverage)
- Safety recalls conducted by small vehicle manufacturers, including some ultra-luxury brands and specialty applications

Stay informed.

Know if there is a safety problem with your vehicles, tires or car seat, and how to get it fixed.

SIGN UP

From your complaints **to recall campaigns**

NHTSA issues vehicle safety standards and requires manufacturers to recall vehicles and equipments that have safety-related defects. Learn about NHTSA's recall process.

01 Complaints

Reporting your problem is the important first step.

Your complaint will be added to a public NHTSA database after personally identifying information is removed.

If the agency receives similar reports from a number of people about the same product, this could indicate that a safety-related defect may exist that would warrant the opening of an investigation.

Example of Complaints →

Report a problem with your vehicle, tires, car seats or other equipment. We review every problem as we work to keep our roads safe.

Report a safety problem →

02 Investigations

NHTSA conducts an investigation from reported complaints.

A. SCREENING

NHTSA reviews filed complaints from vehicle owners and other information related to alleged defects to decide whether to open an investigation.

B. ANALYSIS

NHTSA conducts an analysis of any petitions calling for defect investigations. If the petition is denied, the reasons for the denial are published in the Federal Register.

C. INVESTIGATION

NHTSA opens an investigation of alleged safety defects. It is closed when they notify the manufacturer of recall recommendations or they don't identify a safety-related defect.

D. RECALL MANAGEMENT

NHTSA reviews filed complaints from vehicle owners and other information related to alleged defects to decide whether to open an investigation.

View monthly investigation reports →

03 Recalls

Initiated safety recalls require a manufacturer's action to announce and remedy the defects.

A recall is issued when a manufacturer or NHTSA determines that a vehicle, equipment, car seat, or tire creates an unreasonable safety risk or fails to meet minimum safety standards. Most decisions to conduct a recall and remedy a safety defect are made voluntarily by manufacturers prior to any involvement by NHTSA.

Manufacturers are required to fix the problem by repairing it, replacing it, offering a refund, or in rare cases repurchasing the vehicle.

Using our VIN lookup tool, you can access recall information provided by the manufacturer conducting the recall which may be not posted yet on NHTSA's site.

Roles in the Recall Process

Manufacturer

Manufacturers will notify registered owners by first class mail within 60 days of notifying NHTSA of a recall decision. Manufacturers should offer a proper remedy to the owner.

NHTSA

NHTSA will monitor each safety recall to make sure owners receive safe, free, and effective remedies from manufacturers according to the Safety Act and Federal regulations.

You (owner)

You'll be notified via mail from the manufacturer. When you receive a notification, follow any interim safety guidance provided by the manufacturer and contact your local dealership to fix the recalled part for free.

TIPS FOR YOUR SAFETY

Register your vehicle, tires, car seats & equipment and check recalls twice a year.
