Subject: FW: Consumer comment - 2009 SUBARU FORESTER (14V311 / Brake Line Corrosion)

I don't think any action is required, except maybe to file.

Consumer has submitted 3 IVOQs since 2012, complaining that he has had to depress the brake pedal too far when stopping . Brought to dealer but they found no problem.

I am complaining the brake in-efficiency on my Subaru Forester 2009 for long time to Subaru and NHTSA but got no attention.

I am glad this problem is out and loud now.
