NVS-216 nam  
Ref. No. 10619607

Dear [REDACTED]

Thank you for your correspondence that was received by the National Highway Traffic Safety Administration's (NHTSA), Office of Defects Investigation regarding your experienced with your model year 2000 Pontiac Bonneville. Due to the unprecedented amount of correspondence received by this office, we are now just getting to your letter. Please accept our apologies for this delay.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair motor vehicles or motor vehicle equipment when our investigations indicate that they contain safety defects in their design, construction, or performance. We also monitor the adequacy of manufacturers' recall campaigns. In order for the agency to initiate an investigation, we look carefully at the body of consumer complaints and other available data to determine whether a safety-related defect trend may exist.

The information you provided will be reviewed and has been entered into our database. While NHTSA does not have the resources to intervene in individual disputes, it does monitor this data and may address situations where appropriate. The NHTSA investigation and recall process can be located on our web site at [www-odi.nhtsa.dot.gov/recalls/recallprocess.cfm](http://www-odi.nhtsa.dot.gov/recalls/recallprocess.cfm).

Please note that it is not unusual for some recalls to require additional time when the remedy involves manufacturing a new component for a huge population. Recall parts availability and recall remedies can be affected by numerous factors including, but not limited to, redesign, testing, manufacturing, and logistics. Furthermore, due to the volume of vehicles involved in a recall, manufacturers may conduct the recall in phases. We believe it is important that the manufacturer notify consumers as soon as possible about a recall – even if parts are not yet available to effect the recall – so that consumers can decide whether or not to continue to drive their vehicles while waiting for the recall remedy. You can obtain more information about the recall, including scheduling an appointment and reimbursement procedures for prior repairs by contacting GM or your dealer. Also, GM has a special web site for the recall at [www.gmignitionupdate.com](http://www.gmignitionupdate.com).

[REDACTED]

If your letter is requesting motor vehicle or motor vehicle equipment information, we recommend that you visit our Internet web site at [www.safercar.gov](http://www.safercar.gov). This site provides information concerning motor vehicle recalls, manufacturers' service bulletins, complaints from vehicle owners, etc. You may also contact NHTSA via our toll-free DOT Auto Safety Hotline at 1-888-DASH-2-DOT (1-888-327-4236).

On August 20, 2014, we added a new feature to our web site that will allow consumers to search for open recalls by using the vehicle's identification number (VIN). The free VIN look-up tool (<https://vinrcl.safercar.gov/vin/>), searches for open recalls via a direct connection to the manufacturer's database. The VIN can be found on the door label, insurance card, or lower left corner of your windshield. Then enter VIN into the VIN search box on our web site above. If you have any open recalls, you will know immediately.

If your letter concerns a service/repair problem, warranty or request for reimbursement, this type of complaint does not fall under our jurisdiction. If you have not done so, you may consider contacting your local Consumer Protection Agency, or the Office of Attorney General in your State regarding your problem(s) or request. You have certain rights under your State's lemon law. You may also ask our dealership for a meeting with the manufacturer's district manager regarding your problem or request.

In addition, the Federal Trade Commission (FTC) has jurisdiction over non-safety defects, paint, fraud or deception, warranty and dealership problems, remuneration matters, and fair trade practices. There are three ways to contact the FTC: by toll free telephone at 1-877-FTC-HELP (877) 382-4357; by mail at Federal Trade Commission, CRC-240, Washington, DC 20580; and by using the Internet complaint form at [www.ftccomplaintassistant.gov/#crnt&panel1-1](http://www.ftccomplaintassistant.gov/#crnt&panel1-1).

You may consider contacting the Better Business Bureau (BBB) Auto Line. The BBB offers free mediation/arbitration to resolve warranty disputes under guidelines established by the FTC. Remedies include repair, reimbursement, repurchase or replacement, depending on program eligibility. You can visit their web site at [www.bbb.org](http://www.bbb.org) to file a complaint and review eligibility information, or call the BBB Auto Line at (800) 955-5100.

Sincerely yours,

Randy Reid, Chief  
Correspondence Research Division  
Office of Defects Investigation
