Description (up to 1900 characters)

WARNING: This description, exactly as you enter it, may appear in a public NHTSA database. Do not include any personal information (name, street/email address, phone number, social security/driver license number, Vehicle Identification Number (VIN), etc...).

My RV lost brakes and power steering because of a brake actuator failure. I took it to an RV repair shop for repair and I was told there was no repair part for the failed part. They told me the only way they could get brakes and power steering was to by pass the brake actuator they did and now I don't have any park in my transmission. I believe this maybe a safety problem and chevrolet corporation should be responsible for correcting it.

If your component is not listed below, please describe the component in the above description field.

Failed Component 1

Brakes

Failed Component 2

Brakes

Failed Component 3
