Re: "KILLER" NISSAN ALTIMA 2006
VIN#1N4AL11D66N [REDACTED]
PLEASE STOP ATTEMPTED MURDER
BY NISSAN, NA AND CAPITAL ONE BANK
Confirmation (ODI) Number: 10653599
Complaint: DEFECTIVE THROTTLE POSITIONING SENSOR

Dear ODI/NHTSA:

Today, I received a phone call from a Vicky Anderson, "Incident Investigation", NISSAN, NA in response to my complaint to them, described above and in my original complaint to you. Ms. Anderson stated, verbally, that NISSAN will not provide any of the relief I requested in my complaint to them. More ominously, she stated that NISSAN will not contact Capital One Bank and demand that they not sell or auction off the above vehicle, DESPITE MY CLEAR STATEMENT TO NISSAN THAT THIS VEHICLE CAN CAUSE DEATH! In other words, as happened when I asked Advantage Nissan to repair this defect on November 1, 2013, and they responded that there "was no defect", corporate NISSAN IS KNOWINGLY, WILLFULLY AND MALICIOUSLY AIDING AND ABETTING ATTEMPTED MURDER BY DOING NOTHING TO STOP THE TRANSFER OF A DEADLY VEHICLE TO AN INNOCENT PARTY WHICH BECOMES ITS UNWITTING PURCHASER.

When I called Capital One Bank, I spoke with "Theresa" (ID#SME) in their Auto Finance Department, Plano, TX. When I told Theresa that NISSAN refuses to call Capital One, she responded: "We are not going to be able to call NISSAN." She then added that: "the car is at the auctioneer, whom we notified of the "defect"

TA

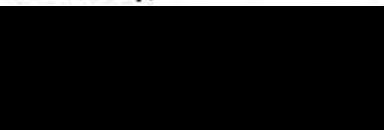

(her word); we are following normal protocol." I stated to her: "Theresa, what Capital One is doing is aiding and abetting NISSAN'S knowing and willful attempt to commit murder, defined as "depraved indifference to human life" – yes, I used those exact words to her – if you sell this car at auction.

IMPORTANT NOTE TO ODI/NHTSA: My former vehicle, the 2006 Nissan Altima with the Defective Throttle Positioning Sensor that can cause death is being held at ADESA, In New Jersey. Their phone number: 908/725-2200. The Adesa Manager's name is: Giovana Rastelli. Her cell phone # is: 908/566-2229. She has refused to speak to me or tell me anything about the status of this vehicle.

PLEASE, DO NOT ALLOW THEM TO SELL THIS VEHICLE TO ANYONE. IT SHOULD BE HELD FOR FULL INVESTIGATION BY YOUR AGENCY. THE NYS ATTORNEY GENERAL'S CONSUMER FRAUD REPRESENTATIVE STATED THEY CANNOT GO TO NEW JERSEY TO INVESTIGATE THIS AND INDICATED YOUR AGENCY IS THE ONLY ONE THAT CAN. Some NYS Governmental agencies that investigate problems with motor vehicles state they only go after disreputable dealers and/or repair shops; they don't handle this kind of an investigation.

I am a senior citizen, a veteran, with limited means. I cannot afford to hire an attorney to proceed civilly, although I would welcome such assistance on a "pro bono" or contingency basis, if you can recommend anyone. And, if, by law, you can require NISSAN to provide me with reasonable compensation for the pain and suffering they have already caused, as well as the damage to mine and two other vehicles, as well as a cleansing of those accidents from my driving record, that would all be very much appreciated. Most of all, I implore you not to permit anyone else to be injured or killed by Nissan's and Capital One's reprehensibly irresponsible, even criminal, conduct.

Sincerely,

A black rectangular redaction box covering the signature of the sender.
