INFORMATION Redacted PURSUANT TO THE FREEDOM OF INFORMATION ACT (FOIA), 5 U.S.C. 552(B)(6)

Dear Mr. [REDACTED]

Thank you for your letter to Secretary Foxx and Administrator Rosekind concerning your model year (MY) 2002 Chevrolet Trailblazer. Your correspondence was forwarded to the National Highway Traffic Safety Administration (NHTSA). I am pleased to respond.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair motor vehicles or motor vehicle equipment when our investigations indicate that they contain safety defects in their design, construction, or performance. We also monitor the adequacy of manufacturers' recall campaigns. In order for the agency to initiate an investigation, we look carefully at the body of consumer complaints and other available data to determine whether a defect trend may exist. We do not have authority to act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

Told it was a 2002, when really a 2003

You indicate that on September 21, 2002, you purchased a MY 2002 Chevrolet Trailblazer from a local dealer. You allege that after taking a demonstration ride in the vehicle you selected to purchase, the dealer switched it for a used vehicle without your knowledge. You assert that since the time of your purchase, you have had a problem establishing the correct warranty in service date for the vehicle. In addition, you state that there is inaccurate information on the buyer's order and vehicle registration as reported by the State DMV. You also have had to deal with several electrical and mechanical problems with your vehicle. You believe the dealer's actions were unethical and could not have happened without General Motors' (GM) knowledge. Therefore, you are requesting NHTSA's assistance in resolving these matters

We located your previous reports from December 1, 2014 and March 16, 2015, which describe the problems you have experienced since you purchased the vehicle in 2002. We reviewed our database in an effort to identify whether a safety defect trend exists with regard to electrical and mechanical problems in MY 2002 Chevrolet Trailblazer vehicles. At this time, there is insufficient evidence to warrant opening a safety defect investigation. The information you provided has been entered into our database. It will be considered with future reports to identify any safety defect trends that may require our attention.

"A safety trend," one problem that could cost a life, should be enough!!

Fuse-Box, (fuse-hazard), windshield wipers (imped driving), and NHTSA says it in brochure a safety hazard. How many deaths makes an exception - what?

Office of Attorney General

M. G. Blawie

Assistant Attorney General:

I hesitated on sending you these "Tapes" I sent to the Federal Trade Commission, and the N.H.T.S.A. because when I called them and asked them about tapes, (during our conversation) they told me when my "package" came (with letters mailed in envelope) they were destroyed (tapes) because of a certain "powder" that could kill people when packages were sent to "Federal-Buildings," I had forgotten about that. I would like to bring these tapes up to you "IN-Hand" they are from Sept. 2002 until March 2015.

- ① Shows driverside-window, window that doesn't work, and power-switch that doesn't work.
- ② Windshield wipers you can only work at one speed "backwards" or they will come off if speed is increased.
- ③ Video (from Sears) that shows defective "fuse-Box" that was rewired.

This is what G.M. knew about "from the start" that I told them, when I was told this 02 Trailblazer belonged to me, after they "switched" and took away my ^{new} 2003 CHEVROLET Trailblazer.

General Motors, Really Did A LOT OF WRONG here.

General Motors has offered me over the phone and in writing between \$500.00 and 2900.00 in a coupon, (have it on video) at Bengras-Chevrolet (where I service this truck) if I trade this 02 Trailblazer in for new truck or car. why would I do this after they stole my money, (38,932.22) and my new 2003 Trailblazer. on the phone it's called a "loyalty-coupon".

Dear [REDACTED],

I'm sending you this priority note because **Gengras Chevrolet is prepared to give you a significant amount of money on Saturday, September 26, 2015.**

Right now [REDACTED] you may upgrade to a new Chevrolet with little or no out-of-pocket expense, for less than your current Chevrolet Trailblazer. Let me explain.

I need to buy back your Chevrolet Trailblazer. **Chevrolet has tasked us with purchasing 27 pre-owned Chevrolets and your Trailblazer qualifies for the program.** Regardless of condition, I will pay you top dollar!

Above Market Reimbursement Allowance
For Your 2002 Chevrolet Trailblazer

\$3,874⁺⁺

On Saturday, You Will Receive An Additional \$2,636[†] For Your Trailblazer!

[REDACTED] because of our need for such a quick transaction and the potential inconvenience to you, I am willing to offer you the new Chevrolet of your choice at our discount - which is substantially lower than the retail selling price. **This is your opportunity to save as much as \$8,800* OFF MSRP.**

Plus, I will give you \$250⁺. And it gets even better. This weekend only, you will receive an additional \$250 bonus on top of **0% Financing for 72 Months[†].**

A Free Gift And Win \$5,000 Cash!

[REDACTED] as a token of our appreciation a **FREE \$10 Target GiftCard®**, just for attending. That's not all, **one invited Chevrolet Trailblazer owner could win \$5,000 Cash!** Check in at the registration desk to see if you hold the lucky number. Your confirmation number is **721070.**

Temporary shortages like the one we are experiencing don't last - I urge you to take advantage of this trade-in opportunity while you still can. Your Chevrolet Trailblazer will never be worth this much money again!

Sincerely,
Eric Schmidt

General Motors,

I was right, "you" ^{are} ~~was~~ the one who put this 2002 CHEVROLET Trailblazer, I never purchased, on the road that is and was defective when it came off the assembly-line. The Time Adds UP!

VIN# 1GN2T135522 [redacted] came off assembly line with "5" miles on it, Sept 2001 larged, (not sold) To Cam Rac, inc, (owns Enterprise, Alko, and National Car & Truck Rentals) on Oct. 30th 2001 was driven for "7" months, (to put mileage on 1GN2T138522 [redacted]) then sold to Cam Rac, inc, (MAY 29th 2002) which was illegal because 1GN2T138522 [redacted] was defective, according to Recalls and Defects record I received from General Motors, I was told I could not get a print-out of defects, but I could get a print-out of recent Recalls, but not past ones. But I could receive Recalls of past and current, verbally, (List Enclosed) on list "2" problems I reported to General Motors, that were on 1GN2T138522 [redacted] that was switched into my name. ① Recall, (03013) Instrument Panel Cluster, reported in 2003, and Recall, (04005)

Windshield Wipers (Never fixed)

I also have video of defective Driverside door, That shocks the heck out of you when you touch handle, ^(outside) or inside door-latch to exit 16NDT135522 [redacted] this video is from Channel-30, 6:30 P.M. News east with Scott Pelley on ^{or Aug 8} Sep. 8 2014 when General Motors said, they put something on the doors circuit-board, "but it didn't work", and they were issuing their 3rd (Third) Recall for this problem, "Next month, (in October) I never got one, The N.T.S.A. wrote me and said their ~~was~~ ^{were} No Recalls for this vehicle, 16NDT135522 [redacted] when they checked,

when VIN# 16NDT135522 [redacted] Left assembly line and went to Cam Rac, inc. in Windsor-Locks, et. and was leased, then sold to Cam Rac, inc., This became a Federal matter,

any and everything that happened after that, is on General Motors, and is a Crime.

I was told by Cam Rac, inc. of 8 ELLA GROSSO Turnpike, in Windsor-Locks, "We generally don't lease vehicles, we purchase them, and sell them with a 12/^{month}12,500 mile warranty."

General Motors, says there were "No! Recalls" before 2006, I Beg to Differ!

GM recalls 189,000 SUVs over fire risk

Share / Tweet / Reddit / Flipboard / Email

General Motors' (GM) troubles with safety recalls have surfaced in another case, this time with the company recalling a group of SUVs for a third time to fix power window switches that can catch fire.

The problem, revealed in documents posted by federal safety regulators this week, is so serious that GM is telling customers to park the SUVs outdoors until they are repaired because they could catch fire when left unattended.

The vehicles will be left outside for a while. Parts won't be ready until October at the earliest, according to GM. The automaker also has ordered its dealers to stop selling the SUVs as used cars until they are fixed.

The recall covers about 189,000 vehicles in North America, mainly from the 2006 and 2007 model years. Models affected include the Chevrolet TrailBlazer, GMC Envoy, Buick Rainier, Isuzu Ascender and Saab 97-X. The recall was one of six announced by GM on June 30 that covered 7.6 million vehicles.

General Motors' handling of defect criticized in Washington

Separately, GM on Friday also recalled 202,115 2002-04 Saturn VUE vehicles because the ignition key can possibly be removed when the vehicle is not in the off position.

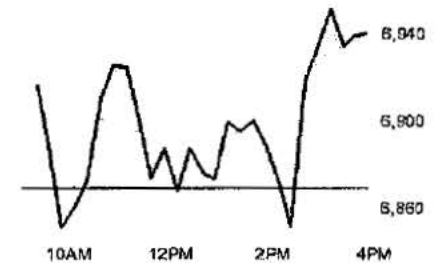

"Until recall repairs have been performed, it is very important before exiting the vehicle for customers to make sure the vehicle is in 'Park,' or in the case of a manual transmission to put the transmission into reverse gear and set the parking brake," GM said in a news release.

Never! a recall for my complaint in 2002 about "switched" and "braked" electrically shocking" drivers-side door, or other recall complaints.

Also recalled were 48,059 2013 Cadillac ATS and 2013 Buick Encore vehicles in the U.S. because cables in front-seat lapbelts in these vehicles may not lock; 14,940 2014-15 Chevrolet Impala sedans in the U.S. because of faulty latches on compartment doors; 1,968 2009-10 Chevrolet Aveo and 2009 Pontiac G3 vehicles because of brake-fluid problems; and 1,919 2014 Chevrolet Spark cars because of control-arm bolts that may not be sufficiently tightened.

GM's Mary Barra blasted by senators on ignition switch defect

GM is in the midst of the biggest safety crisis in its history, touched off by the delayed recall of 2.6 million older small cars to fix faulty ignition switches. The company has issued a record 62 recalls this year covering more than 29 million vehicles.

Before this year, GM had been reluctant to issue recalls, at times opting for lower-cost fixes for safety problems. It's been fined \$35 million by the National Highway Traffic Safety Administration for lapses in reporting the ignition switch problems, which it blames for at least 13 deaths.

After the ignition switch debacle, GM did a companywide safety review, appointed a new global safety chief and pledged to recall cars quickly.

The SUV problem first appeared early in 2012 when NHTSA began investigating consumer complaints of fires in the driver's-door switches that control power windows. *Electrical shorts,*

I never got one recall! This started 2012, mine started in 2002 when I was forced to take this vehicle

Most GM recalled cars are still on the road

At first, GM tried to address the issue with a "service campaign," where it sent letters to owners telling them that water can find its way into the switches, causing rust that can result in short circuits, overheating and possibly fires. The campaign, which wasn't a recall, extended the warranty and offered service only to vehicles that exhibited the problems. *(It was limited to 20 states and Washington, D.C., where salt is used to clear roads in the winter.)*

didn't want me to get a recall because I never purchased this truck!

But in August of 2012, under government pressure, GM recalled 278,000 of the SUVs in the cold-weather states and offered extended warranties to the rest of the country. NHTSA kept investigating, and 10 months later, GM expanded the recall nationwide.

By then, NHTSA and GM had received 242 complaints, including 28 about fires. There were no injuries.

In one complaint filed with NHTSA from October of 2008, a woman reported that the alarm sounded while her 2006 TrailBlazer was parked in her driveway. When she looked outside, it was in flames. Firefighters put out the blaze and told her it started in the driver's door.

"The fire burned the entire driver's side of the vehicle, a portion of the front passenger seat and the roof," she wrote. People filing complaints are not identified by the agency.

The fix used by GM last year was to put a protective coating around the window switch circuit boards, which is less costly than replacing the switches. But starting this April, GM received complaints that the switches malfunctioned in SUVs that had been repaired. So in June, it decided to do the third recall and replace all of the switches.

My problems started LONG before anyone else's did, and I informed NHTSA.

"We are recalling them because the fix that we put in did not work," spokesman Alan Adler said Thursday. "We're taking care of it. We're doing the right thing."

Initially GM tried the service campaign because number of incidents was low, he said. It was limited to the cold-weather states because salty water made the switches corrode quickly and incidents were few in warmer states, Adler said.

Letters notifying owners about the SUV recall should be mailed soon. Owners will get a second letter sometime from October to December telling them when parts are available to fix the vehicles.

This Vehicle's Glossary

Below are the specific definitions for events that appear in this vehicle's report. More information is available in the full AutoCheck glossary.

Term	Section Location	Definition
Loan/Lien	Vehicle Use and Event Check	A loan/lien is the legal right to take and hold or sell the vehicle of a debtor as security or payment for a debt. Normally, a vehicle will have a lien due to a loan or unpaid repair bill against the vehicle. Check with the seller to ensure that the lien has been satisfied.
Accident or Vehicle Damage	Vehicle Use and Event Check	Reported accidents or damage events are a result of vehicle collisions or other non-collision incidents such as vandalism or theft. Not all accidents or damage events are reported to AutoCheck. Certain accident or damage events are reported by the source to have resulted in minor, moderate or severe damage to the vehicle, or the events are calculated by AutoCheck to have resulted in minor, moderate or severe damage based on the information reported. It is recommended to have pre-owned vehicles inspected by a third party prior to purchase.

To General Motors,

For the last "16" years all I've ever wanted from you people was for you to replace my 2003-CHEVROLET Trailblazer you, (and Scramton Motors, Inc) switched on me and all you people wanted to do was talk about the defective 2002' CHEVROLET Trailblazer, (when you talked to me) saying nothing more than "we are not going to replace it". These are the "only" words you ever said to me in "16" years. Even after you wrote me a letter "telling me" I have a 2003' CHEVROLET Trailblazer, and not even offering to replace it. then I get a call from one of your, "Executive-officers" I've never written or talked to over the telephone, telling me he called to let me know quote, "We're not replacing your 2002' CHEVROLET Trailblazer". This made me "think", if all you want to talk about is my 2002 CHEVROLET Trailblazer, I'd better "pull-out" all my files, (copies I've written, and other things received) and go through them again, "like a fine comb". General Motors should have replaced my 2003' Trailblazer.

I have had the answer to my problem,
since, 2014!! But, I was only interested
in getting my truck replaced, because of the
defects and recalls; I forgot about the
"Tape" I recorded off of the television,
the tape that says, (with vehicle history) this
2002' CHEVROLET Trailblazer, (VIN# 1GNDT13S⁵²
22~~XXXX~~) was one of the first, that come-
off The assembly-line, Defective, and IRREPAR-
able" Sept. 25th 2001. you "General Motors"
"automatically" made it a "Federal-Crime"
when you sent it from Detroit, MI, to
Connecticut. you, (G.M.) "leased" it to an
incorporated company ^{with 5 miles on it.} you have been
doing business with for years namely
"CamRac, inc." (they own Enterprise and
National Car Rentals and Fleet service)
for "7" months, (I would say, to put miles on it)
then you "Sold" VIN# 1GNDT13S522~~XXXX~~
to CamRac, inc., (who had an office in Windsor,
CT, on Broad Street, across from Paganock
Ave. where Seranton Motors, (of Windsor, Ct.)
was located; where you, General Motors had
CamRac, inc. place the Defective and Irrepar-
able 2002 CHEVROLET Trailblazer, VIN# 1GNDT-
13S522~~XXXX~~. This vehicle, 2002' CHEVY-
Trailblazer, (VIN# 1GNDT13S522~~XXXX~~) came

off Assembly-Line, (Defective) on Sept. 25th 2001
inspected, found to be Irreparable, and
sent to Connecticut where it is switched on
unsuspecting customer. Over ^{185,000} 185,000 other
vehicles "shipped" ^{after} all-over America, (I'd say
for "14" years) then, "Sooner or Later" these
vehicle purchasers started complaining about
Fires, and Electrical Problems as I-Did! (in 2002)
Thus came the "Unusual Warning" on
Scott Pelley's 6:30 pm C.B.S. News east.
after over 185,000 vehicles had been
purposely put on the road by General
Motors, and its group of "Collusion"
experts, (V.O. Tape Enclosed), ^{wait a minute, you already have} the video, you made the tape for the News
Understand General Motors, I didn't make
this actualization, you did with your
Tape, (on the News) and "Vehicle History
Report" from Experian.

P.S. I Took ^{Tape} "News-east" to clerks office
of Federal Building in Hartford, Ct.
I don't think Judge saw Tape when he "denied"
my case with his ruling in 2012
(will have to go back, and appeal Judge's first
decision).

I came in to purchase "End of season, 2002" CHEVROLET trailblazer, I go inside to pay for 2002 Trailblazer (VIN# 1GN0T13S43 [redacted]) vehicle is "switched" on me, I'm given a 2002' CHEVROLET Trailblazer (VIN# 1GN0T13S-522 [redacted]) No one knew that when salesmen returned with his customer from a "demo-Drive" he gave me his "white-card" for vehicle he just returned in, that I ~~drive~~ demoed and decided to purchase. The "card" said it was a 2002' Trailblazer with VIN# 1GN0T13S43 [redacted]. I informed "G.M." of "switch", they said nothing, I informed "Attorney General," they sent my letter to General Motors, G.M. sent me a letter of apology for "troubles" I was having with my 2003' CHEVROLET Trailblazer, this was when I found out "~~GM~~^{Scranton}" was using 2003' Trailblazers, telling customers they were 2002' vehicles because the vehicles "look" so much alike, ~~Scranton~~ (Scranton) ^{was} ~~there~~ putting "demo" plates on these vehicles as "Bait", my 2003 probably sent out of STATE ^{my vehicle} purchase.

I got copy on last night

Re: [REDACTED] ^{SCRANTON, INC.} vs. Chevrolet
Service Request #: [REDACTED]

Dear Sir/Madame:

Please be advised that I have been asked by [REDACTED] to assist with respect to his concerns that were addressed last in a letter from you dated August 17, 2015. Mr. [REDACTED] has made repeated complaints to you and this has been under investigation by the Connecticut Attorney General's Office. Mr. [REDACTED] has invested hundreds of hours of his time in what should have been resolved by your company many, many years ago. The nature of your letter continues to demonstrate that you do not understand the nature of Mr. [REDACTED] complaint.

You are referring to Mr. [REDACTED] as having a 2003 Chevrolet Trail Blazer. In your letter to the Attorney General, you referred to both a 2002 and 2003 vehicle insinuating that Mr. [REDACTED] has two vehicles, one manufactured in each year. What Mr. [REDACTED] has been trying to say to you since the inception of this matter is that he attempted to purchase a 2003 Chevrolet Trail Blazer but it was swapped out by the dealer at the last moment for a 2002 model. He was lied to about which vehicle he was being sold and had serious problems with it that were pushed off by the dealer until they subsequently went out of business. *A stock company still Active! (A L.L.C. company) SCRANTON, INC. L.L.C.*

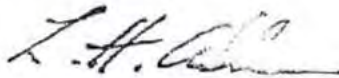

Mr. [REDACTED] was not told the vehicle had been a Camarac rental car or that the fuse box was rewired. He had and continues to have many serious problems including getting "shocked" upon vehicle entry and window washing motor issues.

Your request that Mr. [REDACTED] contact you by phone is not helpful. Every call was met with a new representative who knew nothing of his case and did nothing about these issues. Mr. [REDACTED] requests that you contact him to specifically address this in writing. If in the meantime you would like to discuss this issue with me, you may call me at the above number. I would request an immediate response so that this matter can be resolved once and for all. Thank you for your immediate response.

I WAS MADE TO PAY! For (2001-2002) CHEVROLET, defective L.S., 4-Door, BLK, (VIN# 1GN2T135522 [REDACTED]) Trailblazer, where's my original, 2003 purchase Trailblazer, Extension! VIN# 1GN2T135432 [REDACTED]

Reply I received from General Motors, after letter from Attorney-Generals office.

you just admitted I own Trailblazer I demoed!! you just didn't write down VIN# 1GNPT13S 432 [redacted] of truck I came to buy!!

South Windsor, CT [redacted]

Dear [redacted] I would not have or know this VIN number if I had not (demoed) it, and knew I was purchasing it.

We sincerely apologize for the concerns that you are experiencing with your 2003 Chevrolet TrailBlazer. We understand this can be very frustrating and would like the opportunity to assist you further. Due to the nature of your concern, it is necessary to continue this communication via telephone. This is a first, I told you, they never write me (in all the 12 years since I've had this truck, you! Attorney-General made them make a mistake. Big Thanks you!!)

Total customer satisfaction is important to us at Chevrolet. If your situation has been resolved to your satisfaction, no further action is necessary. If it has not, we invite you call us at 1-800-222-1020. Please refer to the service request number listed below when you reach our representative. making sure I have right VIN. General Motors,

Executive Office

over the phone,

I've written, and talked to 500 many of your "Executive" staff for over "14" years so I know you know who I am, especially over the phone from (just a few) Eric, Franklin, Danielle, Salise, Larry, Robert, and Brian, and they all seem to want to know reason for my calling, but at each of the times I explain, and have written them about my concerns, I've never received any assistance, tell me "Dave" (or whom ever) "what are you going to do to give me assistance" &

Please, "write" me and explain in detail, what you're going to do.

Since no-one from "Executive" office has never called ^{or written} and explained anything.

① P.S. I will tell you this, I can show "collusion" between General Motors Company, Scramon Motors, inc, the Ct. Attorney Generals office, and Ct. Dept. of Motor Vehicles, in had a defective (Recalled) 2002 CHEVROLET Trail-Blazer got in my name, after my credit was over Approved.

(2.)

Three weeks after writing the Ct. Attorney General's office, and after "only" two years in office, he has a "Breaking News East" on television saying he "was not" seeking a third year in office, that he was seeking quote, (without explaining) "other job offers" after this year, (George Jackson)
Wasn't he hired by the STATE'S Supreme Court?
I wondered why!; No, Lawyers would take my case, I wrote you this part over the years, in the past, sooner or later, someone's going to find my case, Interesting,
As I've said in the past, there is new (NO!) statute of limitations, on what was done to me, by your "Group" of people.

I think "STATE" got to Trantolo & Trantolo, never heard anything from them after I sent them a packet. (I know it's because the "store" is broke), I hope the Federal government can help me and not a side not to help me. I did nothing wrong!

South Windsor, CT

April 8th 2018

Highway Traffic Safety Administration,

I have written you and General Motors and all the other federal agencies since you gave me the "info" on who to write. I get no answers, I get no help. My case involves the first 2002 CHEVROLET Trailblazer that came off the assembly line on Sept. 25th 2001. General Motors knew it was defective but still put it on the market to be sold, No! one would buy it, so they send it through their "Business" associates to get rid of it, I "end-up" being the unlucky one, I get the "two purchase deal on one Purchasing-Order Special", for fourteen years, (fifteen, if you want to count that it came off assembly line in 2001) why! is it that I can't get any help? I sent all the papers to G.M. (also ^{included} ~~sent~~ here) just like I sent to you, on how they created the problem, then wrote me back saying I do get a newer truck, then nothing happens. This has been fifteen-years, they've changed our lives, from Middle

class, to poor, and no Federal agency has
seemed to "try" to help me, or even write
and said something substantial, like your
trying to help. What DO I DO!

General Motors, by sending a defective truck,
(especially the "shocking" drivers-side door) that
you've, (NHTSA) known about since 2012, (I
wrote you in 2014!) and I've gotten no
kind of help. I know you've got other
problems, but we've lost everything, our
savings, everything. General Motors by sending
this defective truck and with the help of
their "Collusion" Business-partners have
hurt us badly, by using forgery and deceit
to steal from a retired, (now Broke) General
Motors customer.

Please Help Me!

God-Bless,

- ① defective ^{door} front drivers side, and window.
 - ② Defective windshield wiper
 - ③ Defectively wired "fuse-box" behind drivers-side back floor ~~board~~ ^{under} seat.

Mr. Anthony FOXX:

This 02' Trailblazer has the same electrical short that shocks you, that "Scott Pelley" referred to on Aug. 8th 2014' on the Evening news when he SAID "Among the seven (7) model SUV's were the ones from 2006'" He never mentioned when the "recalls" were, just that their ~~were~~ ^{were} two (2) he never said what year! I reported my electrical problem two (2) days after I received this truck, to dealer and General-Motor on Sept. 23rd 2002'. I even sent "National Highway Traffic Safety Association" copys (before March) in my letters. I was told 02' Trailblazer was not part of "recall," that it might be defective over the phone, long before a recall or other people finding their S.U.V.'s catching on fire or short-circuiting and shocking people.

"This was the problem I reported on September 23rd (a Monday) two (2) days after I "received" this truck!" in 2002'. P.S. with these videos I hope their's "sufficient-evidence to warrant opening a safety defect investigation."

Thank you
