Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

Body rusting under BOTH FRONT SEATS will eventually rust
to interior and floor board will completely rust through
Common problem, CAR HAS spent most time in
garage. Had been rusting for awhile but seems to rust
internally by time you notice it to late floor board seems to be
in layers. Numerous people online with same problem same
location. Recently had fixed, pictures show rust stains on
bottom of carpet. Would have been completely rust through
shortly. Don't know how long it had been rusting noticed around
80,000 miles
