RE: Defective Passenger Airbag
2002 Honda CRV

Dear Sir or Madam,

I have received several safety recall notices regarding a defective passenger airbag in my 2002 Honda CRV. I have been trying to have the defect remedied by my local Honda Dealer (Ed Voyle's Honda) since last summer. I am told they do not have the part and have no idea when they will have the part. I would like to know what you suggest I do, since it is impossible to do what your recall notice tells me to do.

Should anyone be injured by your defective airbag, please be advised that I will sue you. I know a lot of lawyers. In fact, just about everyone I know is a lawyer. I'm sure you've heard of [REDACTED] His office is right up the street.

Very Truly Yours,
[REDACTED]
