THE FAILURE MILEAGE WAS 59,000.</p>			
Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.		ATTACH ADDITIONAL SHEETS IF NECESSARY	
<p>The Privacy Act of 1974-Public Law 93-579 This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.</p>			

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

NO CRASH BUT VERY possible as the truck's speed would drop to about 20 mph without warning and regardless of how fast you were going. Tried to tell the GM people that this is a very unsafe event especially at high speed with traffic behind you. They did not seem to think so, however other ^{GM} trucks/SUV's from other years and engine sizes had the defect listed as a recall. They could not explain why some of their vehicles were recalled but my particular year and make were not. web search shows ^{many} ~~many~~ people with the same complaint.

ATTACH ADDITIONAL SHEETS IF NECESSARY

same complaint.
