Dear Randy Reid Chief:

Thank you for your reply to my letter, which was dated 7/31/2015. The reply I received from you.

I would really appreciate it if you took the time to re-read the letter I sent to Toyota again. Because; I have more than the issue of the air conditioner, being an issue.

I have a big issue with them sending out recall notices about the airbags. I have not received one recall letter since July, 2015. And yet, I kept getting different letters, a total of 6 that I have included in this letter.

As I wrote in my original letter to Toyota, enclosed is a copy for you to read.

My issue is that I do not take my car in for everything they recommend, I cannot afford to do that. I have the oil changed and tires rotated, brakes, etc. I keep all in good order. So, I believe the dealerships send these notices out to bring people in to get the free updates done [supposedly] and then they break other things so that it costs people money. Now, to me that is really bad business.

If you read the paragraph on the second page of the original letter, which I have highlighted in orange, you will note my experience of how I think that this is what happens. There have been three people over the years, that have stated this and they have all been mechanics and one was a general manager of a huge well known dealership in the Sacramento area.

So, I have been been upset about the fact that, Toyota, was a company I trusted.

And when I did speak to; Miyuki, Case number [REDACTED] On June 15, 2015, she said Toyota had no control of different dealerships.

So, what I would like to happen is that the dealership that I took my car to that day, [and had up to that day], I would like to have them investigated for 'padding the bills', or whatever the legal term is for them doing work that is not needed and using

the guise that there is something wrong with the car, to get one in and then finding other things to charge them/me for.

Most Sincerely,

Enclosures:

Case # [REDACTED]

Miyuki

Dear Chief Executive Officer in charge of Complaints:

On June 27, 2013, I entered the Yuba City Toyota, Scion Service Department, at 1340 Bridge Street, Yuba City, CA, to have my car serviced for the FREE Airbag Inflator Module installed at no cost to me. Yes, it was June 27, 2013. I have not been in a Toyota service department since.

As you will see from the enclosed bill when I returned, it was \$600.45. I had big complaints about that so they deducted \$50.00.

If you look at the Multipoint Inspection Sheet, you will see that the cooling system is checked in the green.

When I drove away, on that day, the temperature was 109 degrees.

As I drove away, of course turning on my air conditioner, which had worked perfectly well, when I left my car there for this 'air bag repair,' the day before, June 26, 2013. My car was there overnight as you may notice.

However, after driving around for almost 30 minutes, nothing was happening to cool the air in my car. I was extremely uncomfortable.

I returned to the service department and was visibly upset – it was terribly hot. The people were not in the least bit hospitable towards me. I told them I wanted my car looked at right away. They finally took my car back into the work area. I waited at least 20 minutes, and then I requested to be taken back to where my car was located. The hood of my car was up, there was no one around checking my car. I ask to have someone come over to my car to explain what was happening.

Eventually, after about 15 minutes, someone came over and told me that it was a relay switch that I needed and that it would be another cost to me. Of course, I was very upset, since I had just paid the amount you will see on the enclosed bill.

The service manager, finally agreed to let me have the relay switch for retail cost and not charge me to put it in. I wanted to know if it could have been damaged when the air bag repair had been done. I ask if the air bag repair had had something to do with the electrical system and they said yes.

I was very angry, and I shared that I would never bring my car to a Toyota dealership again. Since, they are **not** respectful of the **care they gave my car**. I ask if someone had test drove my car when they had finished with the work and I was assured that they had. I do not think they did, since anyone driving the car that day, would certainly have turned on the air conditioner and noticed it not working. I do not use profanity, and I was not yelling. I was being demanding that my car get looked at right away

I am receiving notices from Toyota, that there is need for repairs on my car to this day! I have enclosed all of those notices, since this incident back in June 2013. I would have thought that would have fixed the issue. I noticed, that there is never a postage date on the envelopes, and never a date on the inside of the written papers that are telling of the repair needed. So, I have no trust in what any of these 'advertisements' say.

Enclosed you will find 6 copies of the notices that seem to be never ending. What does this tell me. I would have my car in the shop for these recalls and probably be charged many dollars for work that would not be necessary.

I'm beginning to think, that I need you to supply me with a new car without these defects.

I am skeptical about the fact that since I do not live in the Yuba City area, and did not take my car in very often to be serviced there and had not taken my car in for any work for a while, when I took it that day – and that is why I get sent these notices, to drum up business. I know by what happened to me on June 27, 2013 that it certainly cost me lots of money to have the FREE repair done. I know of other people that receive these notices also, and it is because they have not taken their car to a Toyota dealership.

Is that the case? I think so.

I have no faith or trust in the Toyota company any longer.

I have heard, of course, this is hearsay, and you may well know it to be a truth, that mechanics, are trained to see how much they can say they have done and not do it. Thus, saving the company money. And earning bonus' for their self. Or perhaps, they do work that is not necessary and make money for the company. Oh dear – yes I have my thoughts about such things since I have heard it more than once.

While I am sharing this, I will tell you that the brakes, made a grinding noise, so of course, I had to take it in to a place to have my brakes checked. These service personnel showed me that my brakes were all well and good – BUT that Toyota had put in brakes pads that had pieces of ceramic in them. Pieces of ceramic! Isn't ceramic a hard substance, and could cause damage, like grinding out of the break drums. So this was another expense I encountered, from that visit on June 27, 2013. And again, no one shared anything that I might hear grinding noises after these brakes had been put in.

I did watch a program, which aired about a month ago. David Muir the news anchor for a major news station, it was about the damage certain airbags can do. However, these were airbags that were what you call counterfeit. Not PERFECT Toyota parts! Surley, Toyota is not using those sorts of things to put in brand new cars. Or, could that have been the case back when I bought my car in 2003.

I know it has been a long time since all this happened however, I wanted you to know I loved my car, loved what Toyota stood for [or what I thought it stood for] and again, I am hugely disappointed in the service and the way I was treated that day back on June 27, 2013.

[3]

I'm not sure what this letter may mean to this company. I wanted you to know about this situation. It just seems to be so far fetching that since 2003, things have worked well in my car and now I am getting notices that it needs free repairs. Really, it has taken that long to figure it. This is 2015 for goodness sake!

And that previous **free repair** cost me lots of money!

Thank you for reading.

Most sincerely,

If you believe that the dealer or Toyota has failed or is unable to remedy the defect within a reasonable time, you may submit a complaint to the ~~Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue S.E., Washington, D.C. 20590~~, or call the toll free Vehicle Safety Hot Line at 1-888-327-4236 (TTY: 1-800-424-9153), or go to www.safercar.gov.

What if you have previously paid for repairs to your vehicle for this specific condition?

If you have previously paid for repair to your vehicle for this specific condition prior to receiving this letter, please mail a copy of your repair order, proof-of-payment and proof-of-ownership to the following address for reimbursement consideration:

Toyota Motor Sales, U.S.A., Inc.
Toyota Customer Experience, WC10
19001 South Western Avenue
Torrance, CA 90509

Include your name, address, and telephone number(s) in your request. Please allow us 6-8 weeks to process your request.

Please note that the dealer must complete the Safety Recall remedy before reimbursement consideration requests can be processed.

If you are a vehicle lessor, Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

We have sent this notice in the interest of your continued satisfaction with our products, and we sincerely regret any inconvenience this condition may have caused you.

Thank you for driving a Toyota.

Sincerely,

TOYOTA MOTOR SALES, U.S.A., INC.

URGENT SAFETY RECALL

This is an important
Safety Recall Notification.
The revised remedy will be
performed at **NO CHARGE** to you.

2003–2004 Model Year Corolla, Corolla Matrix, Tundra and
2002–Early 2004 Model Year Sequoia Vehicles
Front Passenger Airbag Inflator Module

SAFETY RECALL NOTICE (Interim Notice)

This notice applies to your vehicle: VIN 1NXBR32E13Z

REVISED REMEDY PROCEDURE

Dear Toyota Owner:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Toyota has decided that a defect, which relates to motor vehicle safety, exists in 2003–2004 Model Year Corolla, Corolla Matrix, Tundra, and 2002–Early 2004 Model Year Sequoia vehicles.

You received this notice because our records, which are based primarily on state registration and title data, indicate that you are the current owner.

In April, 2013 Toyota announced a nationwide Safety Recall (D0F) to inspect and, if necessary, replace the front passenger airbag inflator. In June, 2014 the Safety Recall remedy was revised to replace all front passenger airbag inflators regardless of inspection results. The revision is Safety Recall DSF (D3F). According to our records, you did not have the previous recall (D0F) performed.

Due to the change in the remedy, Toyota does not have enough front passenger airbag inflators to perform replacement in all locations at this time. Testing of recovered front passenger airbag inflators found that some inflators from southern Florida performed improperly. Toyota is currently prioritizing part replacement in geographic locations that are subject to consistently high absolute humidity based upon our test results.

What should you do?

We are currently preparing parts for your location; we will send you another notification once sufficient parts have been produced and the revised remedy can be performed.

Until the remedy is performed, we recommend that you do not operate the vehicle with occupants in the front passenger seat. We sincerely apologize for any inconvenience this will cause, but we are taking this action to ensure your safety.

If you would like to update your vehicle ownership or contact information, you may do so by registering at www.toyota.com/ownersupdate. You will need your full 17-digit Vehicle Identification Number (VIN) to input the new information.

INTERIM NOTICE

We are currently preparing the remedy. We will notify you again when the remedy is ready.

2003 to Certain 2004 Model Year Corolla, Corolla Matrix, and Tundra Vehicles and 2002 to Early 2004 Model Year Sequoia Vehicles Front Passenger Airbag Inflator Module SAFETY RECALL NOTICE (*Interim Notice*)

VIN: 1NXBR32E13Z

Dear Toyota Customer:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Toyota has decided that a defect, which relates to motor vehicle safety, exists in 2003 to certain 2004 Model Year Corolla, Corolla Matrix, and Tundra vehicles and 2002 to early 2004 Model Year Sequoia vehicles.

The purpose of this letter is to explain the details of the recall and to keep you informed of Toyota's implementation plan. We are currently making preparations to implement the Safety Recall remedy. **We will send you a second notification when the remedy is available.**

What is the condition?

The subject vehicles are equipped with front passenger airbag inflators which could have been assembled with improperly manufactured propellant wafers. There is a chance that improperly manufactured propellant wafers could cause the inflator to rupture and propel fragments toward occupants in the event of a crash, increasing the risk of injury.

You will receive a second owner notification letter when the remedy is available.

If you would like to update your vehicle ownership or contact information, please go to www.toyota.com/ownersupdate. You will need your full 17-digit Vehicle Identification Number (VIN) to input the new information.

What should you do?

Once you receive the second notice, you will be instructed to bring your vehicle to an authorized Toyota dealer for inspection and replacement of the airbag inflator if necessary. Toyota anticipates the second notice will begin mailing in mid-July.

What if you have other questions?

Please visit us at www.toyota.com/recalls. Please input your 17-digit Vehicle Identification Number (VIN). Frequently Asked Questions (FAQ) are posted on this website for your reference. The FAQ will periodically be updated so please check back frequently.

Your local Toyota dealer will be more than happy to answer any of your questions. If you require further assistance, you may contact the Toyota Customer Experience Center at 1-888-270-9371 Monday through Friday, 5:00 a.m. to 6:00 p.m., Saturday 7:00 a.m. through 4:00 p.m. Pacific Time.

You may also submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue S.E., Washington, D.C. 20590, or call the toll free Vehicle Safety Hot Line at 1-888-327-4236 (TTY: 1-800-424-9153), or go to www.safercar.gov.

If you are a vehicle lessor, Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

We have sent this notice in the interest of your continued satisfaction with our products, and we sincerely regret any inconvenience this condition may have caused you.

Thank you for driving a Toyota.

Sincerely,

TOYOTA MOTOR SALES, U.S.A., INC.

URGENT SAFETY RECALL

This is an important Safety Recall Notification. The revised remedy will be performed at **NO CHARGE** to you.

2003-2004 Model Year Corolla, Corolla Matrix, and Tundra and
2002-Early 2004 Model Year Sequoia Vehicles

Front Passenger Airbag Inflator Module

SAFETY RECALL NOTICE (Remedy Notice)

REVISED REMEDY PROCEDURE

This notice applies to your vehicle: VIN 1NXBR32E13Z

Dear Toyota Owner:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Toyota has decided that a defect, which relates to motor vehicle safety, exists in certain 2003-2004 Model Year Corolla, Corolla Matrix, Tundra, and 2002-Early 2004 Model Year Sequoia vehicles.

You received this notice because our records, which are based primarily on state registration and title data, indicate that you are the current owner.

In April, 2013 Toyota announced a nationwide Safety Recall (D0F) to inspect and, if necessary, replace the front passenger airbag inflator. In June, 2014 the Safety Recall remedy was revised to replace all front passenger airbag inflators regardless of inspection results. The revision is Safety Recall DSF.

According to our records, either (1) you did not have the previous recall (D0F) performed, or (2) this recall was performed and the inspection revealed that the replacement of the airbag inflator was not required.

In either case, you need to bring your vehicle to a Toyota dealership to have the airbag inflator module replaced.

What is the condition?

The subject vehicles are equipped with front passenger airbag inflators which could have been assembled with improperly manufactured propellant. Improperly manufactured propellant could cause the inflator to rupture with metal fragments striking and potentially seriously injuring the vehicle occupants in the event of a crash.

What will Toyota do?

Any authorized Toyota dealer will replace the passenger airbag inflator module at **no charge** to you.

What should you do?

This is an important Safety Recall.

Toyota has completed parts preparation for vehicles in your geographic area. Please contact any authorized Toyota dealer to schedule an appointment to have this remedy performed as soon as possible. The repair will take approximately 2 hours. However, depending on the dealer's work schedule, it may be necessary to make your vehicle available for a longer period of time.

Until the remedy is performed, we recommend that you do not operate the vehicle with occupants in the front passenger seat. We sincerely apologize for any inconvenience this will cause, but we are taking this action to ensure your safety.

You do not need an owner letter to have this recall completed; however, to assist the dealer in confirming vehicle eligibility, we request that you present this notice at the time of your service appointment.

If you would like to update your vehicle ownership or contact information, you may do so by registering at www.toyota.com/ownersupdate. You will need your full 17-digit Vehicle Identification Number (VIN) to input the new information.

at **NO CHARGE** to you.

**2003–2004 Model Year Corolla, Corolla Matrix, and Tundra and
2002–Early 2004 Model Year Sequoia Vehicles
Front Passenger Airbag Inflator Module
IMPORTANT SAFETY RECALL FOLLOW-UP NOTICE**

This notice applies to your vehicle: VIN 1NXBR32E13Z

Dear Toyota Owner:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Toyota has decided that a defect, which relates to motor vehicle safety, exists in 2003–2004 Model Year Corolla, Corolla Matrix, Tundra, and 2002–Early 2004 Model Year Sequoia vehicles. Our records indicate that you own a vehicle that has not yet had this condition corrected.

You received this notice because our records, which are based primarily on state registration and title data, indicate that you are the current owner.

What is the Condition?

The subject vehicles are equipped with front passenger airbag inflators which could have been assembled with improperly manufactured propellant wafers. There is a small chance that improperly manufactured propellant wafers could cause the inflator to rupture due to excessive force and propel fragments toward occupants in the event of a crash, increasing the risk of serious injury.

What will Toyota do?

Any authorized Toyota dealer will perform an inspection and, if necessary, replace the Airbag Inflator Module at **No Charge** to you.

What should you do?

This is an important Safety Recall

Please contact any authorized Toyota dealer to schedule an appointment to have the remedy performed as soon as possible.

The repair will take approximately 1 hour. However, depending on the dealer's work schedule, it may be necessary to make your vehicle available for a longer period of time.

The front passenger airbag is not designed to deploy unless there is an occupant in the front passenger seat (some objects could also cause it to be in a status ready for deployment). Therefore, the risks associated with this condition do not exist if the seat is empty.

You do not need an owner letter to have this recall completed; however, to assist the dealer in confirming vehicle eligibility, we request that you present this notice at the time of your service appointment.

If you would like to update your vehicle ownership or contact information, you may do so by registering at www.toyota.com/ownersupdate. You will need your full 17-digit Vehicle Identification Number (VIN) to input the new information.

What if you have other questions?

- Your local Toyota dealer will be more than happy to answer any of your questions and set up an appointment to perform the repair.
- You can find additional information and locate a Toyota dealer in your area by going online and visiting www.toyota.com/recall.
- If you require further assistance, you may contact the Toyota Customer Experience Center at 1-888-270-9371 Monday through Friday, 5:00 a.m. to 6:00 p.m., Saturday 7:00 a.m. through 4:00 p.m. Pacific Time.

URGENT SAFETY RECALL

This is an important Safety Recall Notification. The revised remedy will be performed at **NO CHARGE** to you.

2003 through 2004 Model Year Corolla and Corolla Matrix Vehicles Supplemental Restraint System (SRS) Electronic Control Unit (ECU) **SAFETY RECALL NOTICE (Interim Notice)**

This notice applies to your vehicle: VIN 1NXBR32E13Z

REVISED REMEDY PROCEDURE

Dear Toyota Owner:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Toyota has decided that a defect, which relates to motor vehicle safety, exists in certain 2003 through 2004 model year Corolla and Corolla Matrix vehicles.

You received this notice because our records, which are based primarily on state registration and title data, indicate that you are the current owner.

The original remedy for this Safety Recall (Toyota #D0B), announced in January, 2013, included the installation of a sub-wire harness (filter). Also, if certain conditions were found during system diagnosis, a new Supplemental Restraint System (SRS) Electronic Control Unit (ECU) was installed. Installation of the sub-wire harness (filter) significantly reduces the chance of inadvertent airbag(s) and/or seat belt pretensioner(s) deployment. However, Toyota has received some reports of inadvertent front airbag(s) and/or seat belt pretensioner(s) deployment involving vehicles in which **only** the noise filter was installed **without** ECU replacement.

Toyota is now updating the remedy procedure for this Safety Recall to install a sub-wire harness **and** replace the SRS ECU on all vehicles covered by this campaign. **According to our records, your vehicle previously had only the sub-wire harness installed, and the SRS ECU was not replaced. Replacement of the SRS ECU is now also required for this Safety Recall to be complete.**

What should you do?

Due to this change, Toyota is finalizing the remedy and preparing sufficient parts to support installation of the sub-wire harness (filter) and SRS ECU. We will send you another notification once these preparations are complete.

We sincerely apologize for any inconvenience this will cause, but we are taking this action to ensure your safety.

Please note that your vehicle may also be involved in another Safety Recall related to potential passenger airbag inflator rupture during airbag deployment. It is important that you review and follow the communications previously sent to you. To confirm that your vehicle is involved in this additional Safety Recall and that the recall needs to be performed, go to www.toyota.com/recall or contact your local authorized Toyota Dealer.

If you would like to update your vehicle ownership or contact information, you may do so by registering at www.toyota.com/ownersupdate. You will need your full 17-digit Vehicle Identification Number (VIN) to input the new information.

What is the Condition?

The Electronic Control Module (ECM) for the Supplemental Restraint System (SRS) in these vehicles could have been manufactured with integrated circuits (ICs) that are susceptible to internal short circuiting when exposed to certain electrical noise from various vehicle electrical components. If internal short circuiting occurs, the front airbag(s) and/or seat belt pretensioners could inadvertently deploy. An airbag that deploys inadvertently can, under some circumstances, increase the risk of injury and the possibility of a crash.

**2003 through 2004 Model Year Corolla and Corolla Matrix vehicles
Supplemental Restraint System (SRS) Electronic Control Module (ECM)
SAFETY RECALL NOTICE**

VIN: 1NXBR32E13Z

Dear Toyota Owner:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Toyota has decided that a defect, which relates to motor vehicle safety, exists in 2003 through 2004 model year Corolla and Corolla Matrix vehicles.

What is the Condition?

The Electronic Control Module (ECM) for the Supplemental Restraint System (SRS) in these vehicles could have been manufactured with integrated circuits (ICs) that are susceptible to internal short circuiting when exposed to certain electrical noise from various vehicle electrical components. If internal short circuiting occurs, the front airbag(s) and/or seat belt pretensioners could inadvertently deploy. An airbag that deploys inadvertently can, under some circumstances, increase the risk of injury and the possibility of a crash.

What will Toyota do?

Any authorized Toyota dealer will install a sub-wire harness (filter) to minimize electrical noise from the other vehicle electrical components at **NO CHARGE** to you.

What should you do?

This is an important Safety Recall

Please contact any authorized Toyota dealer to schedule an appointment to have the remedy performed as soon as possible.

The repair will take approximately **one hour**. However, depending on the dealer's work schedule, it may be necessary to make your vehicle available for a longer period of time.

You do not need an owner letter to have this recall completed; however, to assist the dealer in confirming vehicle eligibility, we request that you present this notice at the time of your service appointment.

If you would like to update your vehicle ownership or contact information, you may do so by registering at www.toyota.com/ownersupdate. You will need your full 17-digit Vehicle Identification Number (VIN) to input the new information.

What if you have other questions?

Your local Toyota dealer will be more than happy to answer any of your questions. If you require further assistance, you may contact the Toyota Customer Experience Center at 1-888-270-9371 Monday through Friday, 5:00 am to 6:00 pm, Saturday 7:00 am through 4:00 pm Pacific Time.

If you believe that the dealer or Toyota has failed or is unable to remedy the defect within a reasonable time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue S.E., Washington, D.C. 20590, or call the toll free Vehicle Safety Hot Line at 1-888-327-4236 (TTY: 1-800-424-9153), or go to www.safercar.gov.

What if you have previously paid for repairs to your vehicle for this specific condition?

If you have previously paid for repair to your vehicle for this specific condition prior to receiving this letter, please mail a copy of your repair order, proof-of-payment and proof-of-ownership to the following address for reimbursement consideration:

Toyota Motor Sales, U.S.A., Inc.
Toyota Customer Experience, WC10
19001 South Western Avenue
Torrance, CA 90509

Include your name, address, and telephone number(s) in your request. Please allow us 6-8 weeks to process your request. If you are a vehicle lessor, Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

We have sent this notice in the interest of your continued satisfaction with our products, and we sincerely regret any inconvenience this condition may have caused you.

Thank you for driving a Toyota.

Sincerely,

TOYOTA MOTOR SALES, U.S.A., INC.

BY LAW, YOU MAY CHOOSE ANOTHER LICENSED SMOG CHECK FACILITY TO PERFORM ANY NEEDED REPAIRS

OR ADJUSTMENTS WHICH THE SMOG CHECK TEST INDICATES ARE NECESSARY.

SUBJECT TO CONDITIONS ON REVERSE SIDE OF THIS CONTRACT. PLEASE READ REVERSE SIDE.

I, the registered vehicle owner, hereby authorize the repair work herein set forth to be done along with the necessary material and agree that you are not responsible for any delays caused by unavailability of parts or delays in parts shipments by the supplier or transporter. I hereby grant you and/or your employees permission to operate the vehicle herein described on streets, highways or elsewhere for the purpose of testing and/or inspection. An express mechanic's lien is hereby acknowledged on the above vehicle to secure the amount of repairs thereto. I hereby appoint YUBA CITY TOYOTA SCION as my attorney in fact and empower you to negotiate and cash any draft or instrument issued in payment of this repair order by any third party in my name and to sign my name thereto. Receipt of vehicle described herein for repair or alteration is hereby acknowledged by dealer. Said customer is hereby notified that the said property, or its contents, is not insured or protected to the amount of actual cash value thereof, or otherwise, by the undersigned dealer against loss occasioned by theft, fire or vandalism while property remains with the dealer. Customer states no articles of personal property have been left in vehicle and the dealer is not responsible for inspection thereof. Customer will be responsible for payment of reasonable attorney fee and costs in the event suit is brought for collection.
