SEP 16 2015

On July 23RD I took my car into the Toyota dealer
MARBOONE TOYOTA in Davie Florida. That appointment
was the result of a notice I received from Toyota
regarding my air bag safety.

I was told by Toyota that they have to "ORDER ~~the~~ ^{the}
parts for the air bag replacement" for my 2007 Corolla"
I called the dealership two weeks ago as to why I
was still waiting to have my air bag replaced. I was
told it was not their fault, it was the manufacturer's
problem to supply the parts for them to install, and they
have NO IDEA when it will be done.

Since this is an emergency, it is a CRIMINAL for
Toyota to NOT have been prepared to correct this
emergency.

I am requesting IMMEDIATE ACTION to correct this
problem. Enclosed is a copy of the notice I received
re this issue.

URGENT SAFETY RECALL
This is an important Safety Recall.
The remedy will be performed
at **NO CHARGE** to you.

Certain 2003–2007 Model Year Corolla and Corolla Matrix,
Certain 2003–2006 Tundra,
And Certain 2002–2007 Model Year Sequoia Vehicles
Front Passenger Airbag Inflator Module
SAFETY RECALL NOTICE (Remedy Notice)
This notice applies to your vehicle: VIN 1NXBR32E87Z

Dear Toyota Owner:

Toyota strongly recommends that you have this Safety Recall remedy performed immediately. If you do not follow the instructions in this letter, you should not drive your vehicle.

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Toyota has decided that a defect, which relates to motor vehicle safety, exists in certain 2003–2007 Model Year Corolla and Corolla Matrix, certain 2003–2006 Tundra, and certain 2002–2007 Model Year Sequoia vehicles. Our records indicate that you own a vehicle that has not yet had this condition corrected.

You received this notice because our records, which are based primarily on state registration and title data, indicate that you are the current owner.

What is the Condition?

The subject vehicles are equipped with front passenger air bag inflators which may have been manufactured in such a way as to have a potential for the intrusion of moisture over time. Depending on the circumstances, this could create excessive internal pressure when the air bag is deployed and cause the inflator to rupture. In the event of an inflator rupture, metal fragments could pass through the airbag cushion material, striking the vehicle occupants potentially resulting in serious injury or death.

What will Toyota do?

Any authorized Toyota dealer will replace the front passenger inflator assembly at **no charge** to you.

What should you do?

This is an Important Safety Recall

Toyota strongly recommends that you have this remedy performed immediately. Please contact any authorized Toyota dealer to schedule an appointment. When taking your vehicle to the dealership for your service appointment, it is recommended that only the driver occupy the vehicle. If you are uncomfortable driving the vehicle to the dealership, please contact your local authorized Toyota dealer who will arrange for vehicle pick up. **Until the remedy is performed, the front passenger seat should NOT be occupied.**
