I am writing about my
2003 Jeep Liberty

VIN 1J4G248K03W [REDACTED]

a recall notice I
received several months
ago. in regards to airbag
system. I have made
several telephone calls &
am being told they do
not have part & to wait
for another notice before
I contact them again. My
thinking is that airbags are
important so why are the
parts not available. Why
send ~~me~~ out these recalls
if nothing is going to be done
for a long period of time
This is not the first
time either. Seems like
recalls come every year
& take forever to get

NM
93015

fused

I also was told by
family members that my
car is also a total
car recall of which I
know nothing.

I would appreciate
hearing from you in
regards to this matter

Thank You

Cedar Mick
