This problem that's still occurring, when starting it's doesn't have to turn back and try again until it do. When picking up speed it's not pulling and it feel to want to stall while in traffic/expressway/highway. It's becoming to be a dangerous issue. I have a 2014 Jeep Compass, never in any accident or even a speeding/parking ticket, that's how safe we take care and keep up with oil changes and all other updates.
