

# PROVIDING Details of How the ACCIDENT HAPPENED

OCT 23 2015

While slowly approaching from behind a parked Accura at 3 MPH on Sewall Ave, a street where I have lived for 14 years and while maneuvering my Honda up behind the Accura, my Honda suddenly, without any warning, jumped, vaulted, leapt forward out of control and into the back of the parked Accura. My foot was constantly on the brake measuring my speed but ~~in~~ nonetheless my car accelerated into the car in front of me. I went into reverse to get out of this scary and embarrassing situation I was in but again my Honda went into unwanted deceleration into the middle of the street where I could interfere with ongoing traffic. Once again, to get out of the middle of the street, slowly and carefully, my car again went into acceleration, jumped the curb and knocked down some potted (over)

signage. I extricated myself and was able move my car close to the sidewalk and behind the Accura. At this point I shut off the ignition + called Triple AAA + owing road service and had my car Towed to Herb Chambers dealership road service located at 1186 Commonwealth Ave Boston/Brookline

Sir/Ms.

I would like to have my CR-V Honda 2005 on NHTSA, reported as a SUV with brake/acceleration problems that because of luck no one was killed or injured including myself. My Honda was repaired at the above mentioned Herb Chambers service department but no mention was ever made concerning the underlying core problem that caused my Honda to accelerate while I was attempting to brake ~~the~~ my vehicle to an appropriate speed for a delicate parking maneuver

Thank you very much
